

Tumor Embolization Devices Global Market Estimated To Grow At 12% Rate

The Business Research Company's Tumor Embolization Devices Global Market Report 2022: Market Size, Trends, And Forecast To 2026

LONDON, GREATER LONDON, UK,
September 21, 2022 /

EINPresswire.com/ -- As per The Business Research Company's "Tumor Embolization Devices Global Market

Report 2022", the tumor embolization devices market is expected to grow from \$1.29 billion in 2021 to \$1.44 billion in 2022 at a compound annual growth rate (CAGR) of 11.7%. The global tumor embolization device market is expected to grow to \$2.27 billion in 2026 at a CAGR of 11.9%. The rise in the number of cancer cases across the globe is likely to contribute to the growth of the tumor embolization devices market during the forecast period.

Key Trends In The Tumor Embolization Devices Market

Companies in the tumor embolization devices market are increasingly investing in technological advances to provide more efficient devices to consumers. The advances include the emergence of biocompatible, biodegradable, drug-eluting microspheres that provide effective embolization. Bioresorbable microspheres block the blood vessels causing tumors without long-term blockage of the healthy tissue blood vessels.

Overview Of The Tumor Embolization Devices Market

The tumor embolization devices market consists of sales of tumor embolization devices and related services by entities (organizations, sole traders, and partnerships) that manufacture tumor embolization devices. Tumor embolization devices are minimally invasive devices used in the treatment of tumors. These devices are used either to shut down the supply of blood to the tumor or to deliver tumor-killing therapy directly to the tumor.

Tumor Embolization Devices Global Market Report 2022 from TBRC covers the following information:

Market Size Data

- Forecast period: Historical and Future
- By region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- By countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Market Segmentation

- By Type: Radioembolic Agents, Non-Radioactive Embolic Agents
- By Application: Cancer Tumors, Noncancerous Tumors
- By End-User: Hospitals, Cancer Treatment Centers, Intensive Care Units, Surgical Centers
- By Geography: The global tumor embolization devices market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, North America holds the largest share in the market.

Major market players such as Boston Scientific Corporation, Medtronic plc, Terumo Corporation, Sirtex Medical Ltd, Merit Medical, Cook Medical LLC, BTG Plc, Angiodynamics, and Siemens Healthineers.

Trends, opportunities, strategies and so much more.

[Tumor Embolization Devices Global Market Report 2022](#) is one of [The Business Research Company's comprehensive reports](#) that provides an overview of tumor embolization devices market. The market report analyzes tumor embolization devices market size, tumor embolization devices market growth drivers, tumor embolization devices market segments, tumor embolization devices global market major players, tumor embolization devices global market growth across geographies, and tumor embolization devices market competitors' revenues and market positioning. The tumor embolization devices global market report enables you to gain insights on opportunities and strategies, as well as identify countries and segments with the highest growth potential.
