

# BitcoinZ releases BTCZ Army 2.0, a major concept of its updated Dynamic Roadmap with many new features

*This way BitcoinZ is the first 100% mineable cryptocurrency project that enables people to get coins without mining equipment*

LONDON, KNIGHTSBRIDGE, UK, September 9, 2022 /EINPresswire.com/ -- BitcoinZ releases BTCZ Army 2.0, the next level of a major concept that was included in the project's updated roadmap.

The new version adds many new features but let's explain what BitcoinZ Army (aka ArmyZ) is about:

BitcoinZ became the first Proof of Work pure cryptocurrency that enables someone to earn coins weekly even without mining equipment

An army of active people in social media that will fight for spreading the word about the original cryptocurrency idea and BitcoinZ, enjoying some coin rewards coming from the Community's Vault.

“

With BTCZ Army 2.0, BitcoinZ became the first Proof of Work pure cryptocurrency that enables someone to earn coins weekly even without mining equipment. 100% real coins that had been mined!”

*BitcoinZ Community*

This way, BitcoinZ became the first Proof of Work pure cryptocurrency that enables someone to earn coins weekly even without mining equipment.

All these rewards are real coins that have been previously mined since BTCZ is a 100% "mineable" project with zero premined coins.

This means that all the coins in the BitcoinZ Network can be created only by mining and there was no founder allocating any coins into his wallet like the vast majority of "cryptocurrencies" tend to do, giving a very bad name in

the industry and spoiling the original cryptocurrency idea with events like Luna, Squid and so many other "rug pulls".

BITCOINZ Community has been distinguished all these years for its high level of engagement. A cryptocurrency without active community members is a dead cryptocurrency. We can see countless projects that try to build an image of “strong” social media profiles with many thousands of followers. However almost all of these supposed followers are fake that are bought in bot packages, with zero interaction.

The BitcoinZ Community prides itself for having 100% organic growth in all social media with real people who are true crypto fans fighting against the unnumbered scam-projects that try to abuse the cryptocurrency landscape.

So which are the differences now with BitcoinZ Army 2.0 version?

BitcoinZ Army 2.0 has been designed after the in-depth analysis of all the original Army-Z concept’s flaws.

The general idea is to cease having a “black or white” , “BitcoinZ Army member or not BitcoinZ Army member” dual state. Because obviously there are members that have different level of activity: from members that are extremely active to members that are elementary active because they don’t have much time or even some people who possibly try to abuse the mechanism just in order to receive rewards and then stop actually helping the project.

**ALL THE REWARDS ARE REAL MINED COINS COMING FROM COMMUNITY DONATIONS**  
**BITCOINZ HAS ZERO PREMINE!**

**ARMY-Z MEDALLIONS & weekly reward pools**

**Generals**: 25,000

**Veterans**: 20,000 | **Archmages**: 20,000

**Knights**: 17,500 | **Magicians**: 17,500

**Fighters**: 15,000 | **Enchanters**: 15,000

**Army-Z Members**: 10,000

**JOIN US** [QR Code]

**BITCOINZ** | **ARMYZ**

**COINOMICS**

**MINING ALGORITHM**: Z-Hash  
 PC mining only with GPUs  
 Green & efficient: PCs can mine & handle other tasks in parallel without antagonizing ASIC miners

**BLOCKCHAIN INFORMATION**  
 genesis date: 10-Sept-2017 | max supply: 21 Billion BTCZ  
 block time: 2.5 minutes | block reward: 6250 BTCZ  
 reward halving every 4 years

**INDEPENDENT NETWORK**  
 ✓ Not a chain fork  
 ✓ Not a token  
 ✓ 100% Community Driven  
 ✓ 100% Uncensored

**COIN DISTRIBUTION**: 100% PoW  
 All coins are distributed only to the Community

**FAIR LAUNCH**  
 ✓ No Premine  
 ✓ No Insamine  
 ✓ No Forkdrops  
 ✓ No ICO sales

**TRULY DECENTRALIZED**  
 In every level:  
 ✓ Network  
 ✓ Governance  
 ✓ Coin Distribution

**IMMUTABLE ATTRIBUTES**  
 Max Supply  
 Emission Rate  
 Optional Privacy  
 Chain Independence  
 Proof of Work  
 Community Driven

With Army-Z 2.0 , there is a much more sophisticated structure with medallions which are related to ranks/levels and even higher coin rewards.

The user is able to join Army-Z and get the basic "Army-Z member's" medal after a relatively easy review of his associated social media Twitter account and then advance to higher ranks by gaining more medals.

How can a member join the BitcoinZ Army 2.0 with simple steps ?

It is a very easy procedure with 3 steps :

- 1) Just [join the BITCOINZ Discord server](#). There you will add your social media profile(s), with which you intend to support the Project, in the #joinarmyz-getfollowers subchannel. In this list you can follow other members in order to help make their profiles stronger, with more followers, like they will do back for you.
- 2) [Install the Vidulum multi-wallet app](#) (you can use even web version without installing it), create a wallet (backup your keys!) and enable the Discord Tipping Bot from the Settings of the wallet by entering your Discord Account's credentials.
- 3) After completing the above and sharing the most important recent posts of the Official BitcoinZ Community Twitter profile in your twitter, the moderators in the BTCZ Discord will add you in the ArmyZ (you can even ask it in the relevant #armyz channel to make it faster)

That's it!

From now on, you will be enjoying bitcoinz coin rewards in your connected vidulum wallet, every week that the administrators make payments to the BitcoinZ Army teams and many bonuses from several members that usually make "coin rains"!

By spreading the word about the Project and the original cryptocurrency idea in more social media platforms, interacting with the relevant BitcoinZ Community accounts and organizing your activity together with other members in the BTCZ Discord Server, you will get even more medals that lead to much higher weekly rewards ! Most importantly you will enjoy the team work and Community spirit! BitcoinZ has no company behind it, the power of the project is you and everyone else in its Community.

How exactly a member can gain a higher rank?

There are two different categories of medals, that are called functions, depending on what kind of activity a member has.

For members who support the Project in social media platforms there are the Social Media medals :

Fighter's □ Knight's □ Veteran's

For members who create content such as artworks, animations, youtube videos, articles etc there are the Content Creation medals : Enchanter's □ Magician's □ Archmage's

Finally there is a special General's medal that is granted to the Community's social media administrators who are also BitcoinZ army's supervisors.

Each medal/rank has a relevant pool with weekly rewards that are distributed every Friday exclusively to the members that have these medals/ranks.

For example the BitcoinZ Army "basic" members have access to the BitcoinZ Army members' rewards that are 10,000 BTCZ coins per week.

The Army-Z Fighters have access to the Fighters' rewards that are 15,000 BTCZ per week, the Army-Z Knights have access to the Knights' rewards that are 17,500 BTCZ per week and so on.

In order to advance to a next level/rank , a member has to fulfill the relevant requirements and to first have acquired all the previous ones in the same "chain".

A Fighter has to first be a BitcoinZ Army member.

A Knight has to first be a Fighter and so on.

So a Fighter is included in both the Army-Z members' list and in the Fighters' list, receiving rewards from both of these pools of rewards every week.

In the same way, a Knight is included in all the three lists of Army-Z members, Fighters and Knights (since he has all these three medals) and he is receiving rewards from all these associated pools of rewards.

Obviously, as the requirements are higher for each rank , the list with the members that are eligible to receive a higher rank's rewards are less and the rewards are much better. In contrast,

a single Army-Z member is in a much more populated list , sharing the weekly rewards with many more other people.

The requirements for each rank can be found in the Medallion/Ranks Analysis table and a general description can be found in the relevant card.
