

AUTOPYLOT NOW AVAILABLE FOR ANDROID DEVICES WORLDWIDE

Android users can now automate their sales processes by leveraging AutoPilot's voice-to-text and auto-logging capabilities

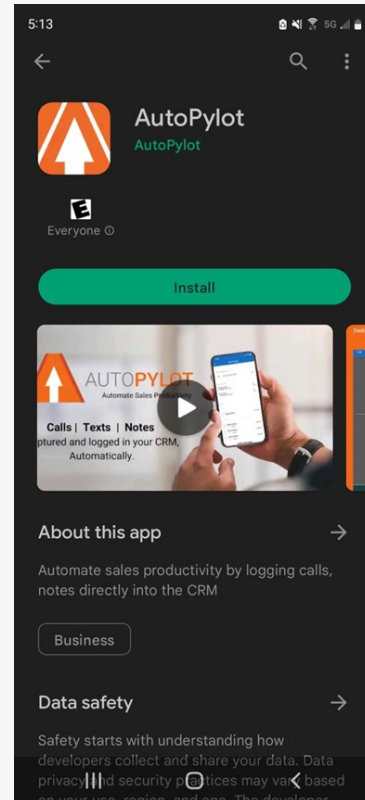

SONOMA, CA, USA, September 13, 2022 /EINPresswire.com/ -- [AutoPilot Technologies Corp.](https://www.einpresswire.com/autopilot), the leader in auto-logging and capturing phone calls and text messages to drive sales productivity, announced today the availability of its AutoPilot mobile application for Android users worldwide.

Sales professionals using Microsoft Dynamics 365 CRM can now easily access the app in the Google Play Store for use on their Android devices. It joins an existing iOS version in the Apple App Store.

With AutoPilot, users can automatically capture customer call interactions, quickly log notes and action items, and automatically push the relevant data into their D365 instance.

When coupled with the AutoPilot CRM Console app and the AutoPilot Portal, sales teams can easily evaluate and monitor sales interaction data to make more informed decisions and accelerate the sales cycle.

[“AutoPilot for Android”](#) means millions of Android users worldwide can now solve one of their biggest CRM management frustrations – manual data entry,” said Jeff Brown, Founder, and CEO, AutoPilot. “We’ve built the app with an intuitive user interface and with convenience in mind so

The AutoPilot mobile app is now available in the Google Play Store for Android users worldwide.

AutoPilot - solving the most frustrating problem with your CRM

We've built the app with an intuitive user interface and with convenience in mind, so that there's virtually no learning curve for users. Just log in and start making calls in less than a minute."

Jeff Brown

that there's virtually no learning curve for salespeople. Just log in and start making calls in less than a minute."
