Key Takeaways:

This IndustryARC report on the Medicated Pain Relieving Plasters Market highlights the following areas -

1. Geographically, North America (Medicated Pain Relieving Plasters Market) held a dominant market share in 2021 and it is poised to dominate the market over the period 2022-2027 owing to the increasing number of people suffering from muscle pain that gives rise to the demand for medicated plasters and the rising number of pharmacies in the U.S. boosting the availability of

medicated plasters which in turn increases the adoption of medicated plasters among people.

2. Medicated Pain Relieving Plasters Market growth is being driven by the rising prevalence of arthritis among people and the surging number of accidents among sportspeople. However, the rising side effects of medicated plasters including skin conditions at or around the site of plaster application, like redness, rash, itching, burning, dermatitis, and small blisters are some of the factors hampering the growth of Medicated Pain Relieving Plasters Market.

3. Medicated Pain Relieving Plasters Market Detailed Analysis of the Strength, Weaknesses and Opportunities of the prominent players operating in the market will be provided in the Medicated Pain Relieving Plasters Market report.
