

# Sulpho Tobias Acid Market Share Worth US\$ 120.3 million by 2027 - New Research Report by IndustryARC

*The growing production of cotton, rise in the textile industry, and others will drive the Sulpho Tobias Acid Market*

HYDERABAD, TELANGANA, INDIA, September 13, 2022 / EINPresswire.com/ -- IndustryARC, in its latest report, predicts that [Sulpho Tobias Acid Market](#) size is forecast to reach US\$120.3 million by 2027, after growing at a CAGR of 3.2% during 2022-2027. sulpho tobas acid is an organic acid of an amino group that serves a variety of functional purposes

like dyestuff intermediates, pharma intermediates, and others. Sulpho tobas acid is widely available in polythene liners packaging to maintain the moisture of the sulpho tobas during transportation. the manufacturing sector of textile and its sales along with growing demand from industrial, pharmaceutical, and others will boost the demand for the Sulpho Tobias Acid Market during the forecast period. The report offers a complete analysis of the market, its major segments, growth factors, trends, drivers and challengers, key players and more.

Segmental Analysis:

1. The technical segments accounted for around 75% of the market share in 2021 and are estimated to grow at a significant CAGR during the forecast period. Technical-grade sulpho tobias acid is widely used as a dyestuff intermediate in textile, plastic, paper, and other sectors. The growing production of plastic which is widely used in various end-use sectors like packaging, construction, and others is increasing the technical grade segment of sulpho tobias acid.

2. Asia Pacific region held the largest share in the Sulpho Tobias Acid Market in 2021 up to 42%, owing to the growing textile, pharmaceutical, plastic, paints, printing inks, and others, in developing countries like China, India, Indonesia, and others. The major factor responsible for the growth of sulpho tobias acid acts as the dye intermediates in various end-use industries.

3. The Textile segment accounted for approximately 35% of the market share in 2021 and is estimated to grow at a significant CAGR during the forecast period. Sulpho tobias acid is widely used as a dye intermediate solution in a textile application for fibers, yarns, and fabrics to achieve color with the desired colorfastness.

Competitive Landscape:

The top 5 players in the Sulpho Tobias Acid industry are -

1. Bhageria Industries Limited.
2. Shanghai River Chemical.
3. Ambuja Intermediates Limited.
4. Panoli Intermediates.
5. Yuhao Chemical.
