According to the latest research by Insightace Analytics, the global regional anesthesia disposables market was valued at US\$ 421.5 Million in 2021. It is expected to reach US\$ 560.5 Million by 2028, with a CAGR of 4.2 % during a forecast period of 2022-2028.

Regional anesthesia does not render the patient unconscious but numbs a more prominent (albeit still

constrained) portion of the body. Disposables for regional anesthesia are portable, user-friendly tools for various surgical and non-surgical treatments. The digestive, neurological, ophthalmic, urologic, cardiovascular, orthopedic, and other popular surgical procedures are addressed by

anesthetic disposables. Non-surgical pain management methods include those used in trauma, chronic pain, critical care, and childbirth cases. Because anesthesia disposables are single-use items, the danger of infection is reduced.

The factors driving this market are the rising prevalence of chronic diseases worldwide, the rising number of surgeries performed, the rising public awareness of the newest technologies, the rising demand for safe and efficient pain management during childbirth and surgery, and the rising use of anesthesia disposables. The main causes of death globally have been various neurological problems, cardiovascular disorders, chronic respiratory diseases (CRD), cancer, and infectious infections. According to WHO (World Health Organization) figures from 2018, more than 312.9 million surgical procedures were conducted worldwide, which is still increasing at a rate of 4.1% a year. Thus, it is anticipated that the need for regional anesthetic disposables will increase throughout the upcoming years due to the rising number of surgeries. Continuous R&D efforts may increase market share and profits for market participants. New product launches will also have a favourable effect on the market's expansion.

North America is anticipated to contribute to the regional anesthesia disposables market over the forecast years. The need for anesthetic disposables is driven by the region's high prevalence of chronic diseases, rising surgical rates, and growing investments in the healthcare system. In addition, the Asia Pacific regional anesthesia disposables market is expected to grow significantly during the forecast period due to the region's expanding patient population and rising surgical activity.

Major market players operating in the regional anesthesia disposables market include B. Braun Medical Inc, Teleflex Inc., Smiths Group plc, Actuated Medical Inc, DOME Medical Technologies Inc, Becton Dickinson and Company, Pajunk GmbH, Vygon SA, Epimed, Flat Medical, Medovate Ltd, Omeq Medical Ltd., Safersonic US Inc., CIVCO Medical Solutions, Spectra Medical, HEKA healthcare, Egemen International, Unisis Corporation Japan, Vogt medical, SARSTEDT AG & CO, SFM Medical devices and Other Prominent Player.

Recent collaborations and agreements in the market:

- In January 2021, ICU Medical declared that it had successfully purchased Smiths Medical from Smiths Group plc. The transaction focuses on building infrastructure and investing in integration to support the 2017 acquisition of Hospira Infusion Systems.
- In October 2021, Medovate, a company specializing in cutting-edge medical technology research and commercialization, recently announced its first contract with Bluestone Corporation Pte Ltd in Asia to distribute SAFIRA (SAFer Injection for Regional Anesthesia) in the Singapore area.

Market Segments

Global Regional Anesthesia Disposables Market, by Product Type, 2022-2028 Value (US\$ Mn) and volume (No. of Units)

- Peripheral Anesthesia Disposables
 - o Peripheral Nerve Block Needle
 - o Catheters
 - o Catheter Connector and Filter
 - o Luer-Lock syringe
 - o Ultrasound Probe Cover Set
- Combined Spinal Epidural Disposables
 - o Spinal Needle
 - o Epidural Needle
 - o Epidural Catheter
 - o Fixation Device
- Epidural Anesthesia Disposables
 - o Continuous Epidural Anesthesia Kits
 - o Epidural Catheter
 - o Epidural Needle
 - o Catheter Connector
 - o Catheter Fixation and Filter
 - o Syringe/ Luer Lock Syringe
 - o Others (Balloon, Plastic Syringe, etc.)
- Spinal Anesthesia Disposables
 - o Needles
 - o Spinal Anesthesia Accessories Trays

Global Regional Anesthesia Disposables Market, by End User, 2022-2028 Value (US\$ Mn) and volume (No. of Units)

- Hospitals
- Ambulatory Surgery Centers
- Multispecialty Clinics

Global Regional Anesthesia Disposables Market, by Region, 2022-2028 Value (US\$ Mn) and volume (No. of Units)

- North America
- Europe
- Asia Pacific
- Latin America
- Middle East & Africa

North America Regional Anesthesia Disposables Market, by Country, 2022-2028 Value (US\$ Mn) and volume (No. of Units)

- U.S.
- Canada

Europe Regional Anesthesia Disposables Market, by Country, 2022-2028 Value (US\$ Mn) and volume (No. of Units)

- Germany
- France
- Italy
- Spain
- Russia
- Rest of Europe

Asia Pacific Regional Anesthesia Disposables Market, by Country, 2022-2028 Value (US\$ Mn) and volume (No. of Units)

- India
- China
- Japan
- South Korea
- Australia & New Zealand

Latin America Regional Anesthesia Disposables Market, by Country, 2022-2028 Value (US\$ Mn) and volume (No. of Units)

- Brazil
- Mexico
- Rest of Latin America

Middle East & Africa Regional Anesthesia Disposables Market, by Country, 2022-2028 Value (US\$ Mn) and volume (No. of Units)

- GCC Countries
- South Africa
- Rest of Middle East & Africa

Why should buy this report:

- To receive a comprehensive analysis of the prospects for the global regional anesthesia disposables market
- To receive an industry overview and future trends of the regional anesthesia disposables market
- To analyze the regional anesthesia disposables market drivers and challenges
- To get information on the regional anesthesia disposables market value (US\$Mn) forecast to 2028
- TO get information on investments, mergers & acquisitions in the regional anesthesia disposables market industry
