Key Takeaways:

This IndustryARC report on the Waterborne Coatings Market highlights the following areas -

1. Asia-Pacific dominates the Waterborne Coatings Market, owing to the bolstering growth of the building and construction industry in the region. For instance, in terms of value, the Indian construction industry is expected to record a CAGR of 15.7 percent to reach \$738.5 billion by 2022, according to Invest India.

Market Research Reports, Business Consulting
Services & Analytics

2. The demand for environmentally friendly products like Waterborne Coatings, which contain fewer solvents that evaporate during the curing process, has gradually shifted away from solventborne coatings as a result of growing awareness of the negative effects of VOC emissions.
3. Coatings producers are required to continuously improve their processes to comply with the new policies as a result of the increasing number of regulatory policies being implemented by various governments. This factor is predicted to limit market expansion.
