

Automated Material Handling Equipment Market Expected to Reach USD 55.71 billion by 2029

Automated Material Handling Equipment Market Analysis by Growth, segmentation, performance, Competitive Strategies and Forecast

PUNE, MAHARASHTRA, INDIA,
September 13, 2022 /

EINPresswire.com/ -- Data Bridge

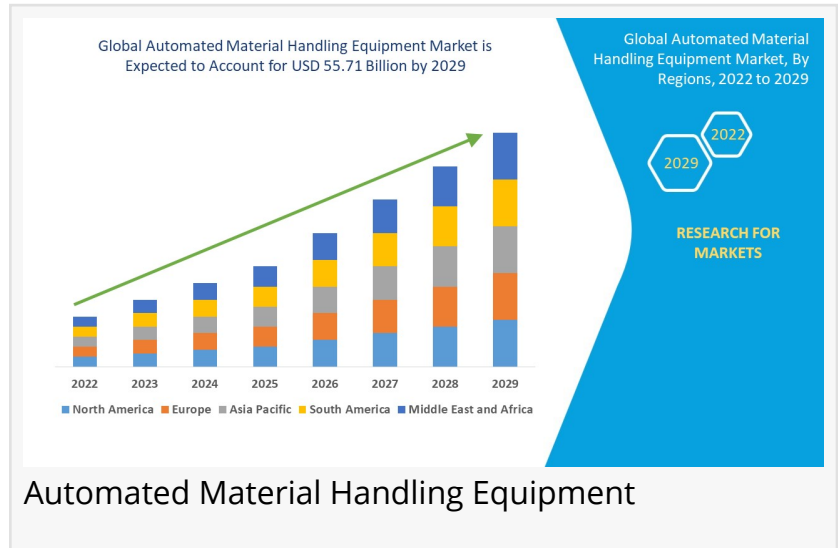

Market research has recently published comprehensive business research on

["Global Automated Material Handling Equipment Market"](#) which includes

historic data, present market trends,

future product environment, marketing strategies, technological innovation, upcoming technologies, emerging trends or opportunities, and the technical progress in the related industry.

[Automated Material Handling Equipment Market](#) research report execution is becoming very vital for businesses to gain success because it offers many benefits including insights into revenue growth and sustainability initiative. The large-scale [Automated Material Handling Equipment](#) Market research report is an absolute overview of the market that takes into account various aspects of product definition, market segmentation based on various parameters, and the established merchant landscape. This industry report also offers businesses the company profile, product specifications, production value, manufacturer's contact information, and market shares for the company. Moreover, the Automated Material Handling Equipment Market business report blends together all-inclusive industry analysis with particular estimates and forecasts to provide complete research solutions with the greatest clarity for strategic decision-making.

Global Automated Material Handling Equipment Market was valued at USD 26.20 billion in 2021 and is expected to reach USD 55.71 billion by 2029, registering a CAGR of 9.89% during the forecast period of 2022-2029. Unit Load Material Handling Systems is expected to witness significant growth in the system type segments of the market owing to the surge in demand for automated material handling equipment in the e-commerce industry. In addition to the market insights such as market value, growth rate, market segments, geographical coverage, market

players, and market scenario, the market report curated by the Data Bridge Market Research team also includes in-depth expert analysis, import/export analysis, pricing analysis, production consumption analysis, and pestle analysis.

Automated material handling equipment shall be used for the processing, regulating, securing and motion of products. These instruments are very easy to be used throughout the production, usage and storage method. Automated material handling equipment simplifies the method and is used in contemporary day sectors.

Competitive Analysis: Few of the major competitors currently working in the global automated material handling equipment market are Daifuku Co., Ltd, BEUMER GROUP, Interroll (Schweiz) AG, Kardex Group, Honeywell International Inc., KION GROUP AG, Dearborn Mid-West Company, JBT., Jungheinrich AG, Columbus McKinnon Corporation, KNAPP AG, Siemens, TGW Logistics Group, SSI SCHAEFER AG, Mecalux, S.A., System Logistics Spa, viastore systems GmbH, WITRON Logistik + Informatik GmbH, KUKA AG, Murata Machinery, Ltd., TOYOTA INDUSTRIES CORPORATION., WESTFALIA TECHNOLOGIES, INC., Seegrid Corporation, amongst others.

The report provides insights on the following pointers:

Market Penetration: Provides comprehensive information on the market offered by the key players

Market Development: Provides in-depth information about lucrative emerging markets and analyzes the markets

Market Diversification: Provides detailed information about new product launches, untapped geographies, recent developments, and investments

Competitive Assessment & Intelligence: Provides an exhaustive assessment of market shares, strategies, products, and manufacturing capabilities of the leading players

Product Development & Innovation: Provides intelligent insights on future technologies, R&D activities, and new product developments

Drivers

High Use in Food and Beverages Sector

The automated material handling equipment has found major application in the food and beverage industry due to the additional requirements for sanitation than other sectors. Requirement of stringent sanitary conditions for systems that transport foodstuffs is required by FDA and USDA that acts as one of the major factors in driving the growth of the market.

Increase in Warehouses

The surge in number of warehouse developments in the advancing countries accelerate the market growth. The rise in need from the manufacturing industry has a positive impact on the growth of the market. The increase in startups offering robotic solutions for warehouse automation also drives the market further.

Concerns regarding Safety

The increase in the adoption of industrial lifting equipment to enhance productivity, and reduce injuries and disasters further influence the market. Also, an inclination for IC-engine forklift trucks in developing regions assist in the expansion of the market.

Some Major Points in TOC:

Chapter 1. Report Overview

Chapter 2. Global Growth Trends

Chapter 3. Market Share by Key Players

Chapter 4. Breakdown Data by Type and Application

Chapter 5. Market by End Users/Application

Chapter 6. COVID-19 Outbreak: Automated Material Handling Equipment Market Industry Impact

Chapter 7. Opportunity Analysis in Covid-19 Crisis

Chapter 8. Market Driving Force

And Many More...

How does the Report Aid Your Business Discretion?

This section of Automated Material Handling Equipment Market report highlights some of the most relevant factors and growth enablers that collectively ensure a high-end growth spurt. The report unravels details on pronounced share assessments across both country-wise as well as region-based segments.

A leading synopsis of market share analysis of dynamic players inclusive of high-end industry veterans.

New player entry analysis and their scope of new business models.

The report includes strategic recommendations for new business veterans as well as established players seeking novel growth avenues.

A detailed consultation services based on historical as well as current timelines to ensure feasible forecast predictions.

A thorough evaluation and detailed study of various segments as well as sub-segments across regional and country-specific developments.

Details on market estimations, market size, dimensions and the like.

A review of market competitors, their high-end product and service portfolios, dynamic trends, as well as technological advances that portray high end growth in this Market.
