LONDON, GREATER LONDON, UK,
September 20, 2022 /
EINPresswire.com/ -- As per The
Business Research Company's

"Negative Pressure Wound Therapy

Global Market Report 2022", the negative pressure wound therapy global market is expected to grow from \$2.13 billion in 2021 to \$2.26 billion in 2022 at a compound annual growth rate (CAGR) of 5.88%. The growth in the market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global [negative pressure wound therapy market size](#) is expected to reach \$2.68 billion in 2026 at a CAGR of 5.87%. The growing prevalence of diabetes is expected to propel the growth of the negative pressure wound therapy global market.
