/EINPresswire.com/ -- The Global

[Potassium Sorbate Market](#) is forecast

to reach USD 373.3 Million by 2027, according to a new report by Reports and Data. Potassium Sorbate or (K-Sorbate) is an odorless partly hygroscopic crystalline common potassium salt of sorbic acid, which is manufactured by complete neutralization of sorbic acid with a high purity potassium carbonate or potassium bicarbonate and subsequent crystallization. Potassium sorbate is approved by the European Union (EU) and European Free Trade Association (EFTA) as a safe food additive with a distinctive E-Number of E202. The global market is growing at a substantial pace due to the growing demand for potassium sorbates in food preserving applications as a fungistatic agent. Continuous expansion of the food & beverage industries has directly influenced the growth of potassium sorbate as this chemical is utilized in the food-grade applications such as fruits & vegetables, pickles, fruit juices, dairy products, syrups, jams, sauerkraut, and dried fruits, to name a few and also in pharmaceutical & alcoholic beverages.

The Asia Pacific region is expected to retain its dominance in the global market. The market in North America is growing at a significant pace due to the extensive use of potassium sorbate in food preservatives and cosmetics. China and India are some of the fastest-growing markets in the world, and the United States and China hold some of the most prominent players in the market.
