

Top Electric Cargo Bike Companies in the world 2022 – IMARC Group

SHERIDAN, WYOMING, UNITED STATES,
September 14, 2022 /

EINPresswire.com/ -- Electric Cargo Bike is a cargo-carrying bike that runs on a battery. It allows the rider to transport heavy items difficult to transport by human power. It is operated and powered by portable batteries like lithium-ion and nickel-based batteries. It is highly versatile and offers a smooth ride as it is light in weight. It can serve as an efficient method of transport for carrying packages, cargo, food, and more. The demand for these vehicles is

accelerating as they are environmentally friendly and have a low running cost. According to IMARC Group, The global electric cargo bike market is expected to exhibit a CAGR of 12.17% during 2022-2027.

Electric Cargo Bike Market Size

The global market is majorly driven by growing investments in e-mobility and urban transportation. In line with this, the increasing requirement for transportation infrastructure in E-commerce for delivery purposes is offering numerous opportunities to the market players. Several new features by multiple companies are likely to attract more e-commerce and logistic and supply chain companies, which is a driving factor for demand and sales of electric cargo bikes. Furthermore, various manufacturers are strongly focusing on developing high-performance, low-maintenance, and high-load-carrying capacity electric cargo bikes. Major electric cargo bike companies are involved in producing cost-effective and lightweight vehicles to improve the overall performance parameters. The favorable government initiatives to promote clean transport are offering lucrative opportunities to vendors of electric cargo bikes. Additionally, shifting focus on improving air quality, decarbonizing transport, and regaining

public street space is expected to catalyze the market expansion.
