Ujal Nair, Editor at World Business Outlook, appreciating Várri Consultancy's dedicated team of experts, commented: "A Significant number of business firms have increasingly been pushing their risks due to the lack of high-quality risk consultancy and analysis. Várri Consultancy has been credited for its extensive survey conducted on the UAE's fintech industry, which revealed that the industry has been proliferating every year but could face dire consequences due to the continuous supply chain disruptions, liquidity risk, data and privacy-related risks, cyber security risk, and frauds and scams. The Dubai company truly deserves the awards we have honoured them with."

Commenting on the two awards, Johnny Kollin said, "We are delighted with the recognition we have received from World Business Outlook, particularly as they reflect the feedback we've received from our clients".
