

Less than a week until IoT Tech Expo at RAI, Amsterdam

IoT industry enthusiasts and specialists will all be heading to RAI Amsterdam on the 20-21 September 2022

AMSTERDAM, NETHERLANDS, September 15, 2022 / EINPresswire.com/ -- Networking, exchanging experiences and strategies, plus access to exciting sessions with industry leaders – all that and much more will be available to the visitors at this year's [IoT](#) expo.

The expo offers the largest number of co-located events, allowing the visitors to explore a variety of fundamental technology solutions. Tickets will also allow access to additional conference tracks taking place on the day, including AI & Big Data Expo, Blockchain Expo, Edge Computing Expo and Digital Transformation Week!

We are expecting 5000 attendees, with over 150 speakers spread across 6 co-located events"

Lia Richards, the Head of Conference at TechEx

Phillips, European Commission, Amazon Web Services and many more exciting speakers!

Industry experts from Phillips, AWS, Nestle, Henkel, Palo Alto, Volvo, just to mention a few, will share their secrets about the IoT ecosystem and its best use in their organisations. The

newest application methods, insightful solutions, adoption trends and industry predictions – all that will be shared with the IoT Tech Expo visitors.

Lia Richards, the Head of Conference for the IoT Tech Expo world series says

"We're excited to return to Amsterdam with an exciting line-up of speakers and industry specialists. We are expecting 5000 attendees, with over 150 speakers spread across 6 co-located events – for everyone involved in digital technologies - this expo is a must-attend."

2022 speakers include:

- Elliot Willis, IoT Enablement Specialist, Amazon Web Services
- Matt Roberts - Research & Insight Director at Formula E
- Manu Menon, Business Lead, Bosch
- Alexander Allmendinger, Test Lab Manager, OPC Foundation
- Laurent Bouchoucha, VP, Business Development, Network, Alcatel-Lucent Enterprise

This year's conference agenda consists of two days covering enterprise applications of IoT. Some of the subjects will include:

- IoT Delivering on Resilient Supply Chains
- Big Data in the World of the Economy of Values
- Accelerate Digital Transformation by Leveraging IoT's Data
- IoT Security – Acting Ahead of the Threat
- The Importance of Data Models for an Industry 4.0 Manufacturing
- Interoperability Enabling Smart Infrastructures
- The Dramatic Change in eSIM and What's Apple Got To Do With
