“

As a young girl, I saw so many other girls being bullied... I began... encouraging them to stand up for themselves.... believe in themselves and not look to other people to be OK with their choices..."

Tameka Chapman

"I remember being at my maternal grandmother's house and standing on the steps of her shed, and I spoke into the atmosphere and believed every word. I said, 'When I get older, I'm going to travel the world and encourage girls all over the world to go for their dreams.' I carried that statement for the rest of my life, and it has truly manifested in a way that I didn't see back then." - Chapman

MOGUL DOMINATION

Chapman is a U.S. Navy Veteran, Television Producer, Award-Winning & International Bestselling Author, Award-Winning Global Speaker, former Paralegal Specialist, energizeHER Life & Wellness Coach and 7-Figure Business Growth Strategist. Throughout her upbringing and professional journey, Chapman has always been steadfast in her mission to persevere for life goals.

In her company, as a business growth strategist, Tameka Chapman provides tips, tools, and strategies to transform women's mindsets to achieve their business and life goals by showing them how to create, build and scale their businesses in her Mogul Domination online learning platform.

Using her life as an example of what can be accomplished by dedicating mind, heart and actions to the forefront, Chapman walks women through the process of overcoming self-doubt, fear, and self-limiting beliefs so they can become fully equipped to persevere in pursuing the life they deserve to live.

"Female empowerment has always been and will always be a major part of who I am. As I became a young lady, there were times when I felt that I didn't have a voice, even though I was championing for others to use theirs. I really wanted to believe that I had people in my life that made me feel comfortable enough to know that I wouldn't be judged but loved. It took time to fully embrace my past, but once I did, I became unstoppable with empowering every woman that I met... Since that time, I've gone on to becoming a global speaker and having spoken in front of groups of up to 25K women, one thing still rings true—there is never too much women's

empowerment!" – Chapman

During a vision board party that she hosted in 2020, Tameka included her vision of creating a television network, with a great focus on female empowerment across the globe. Now, as the creator of the MOGUL TV Global Network, she is afforded the opportunity to offer programming that shines a light on positivity around the globe.
