But what is C60? In 1996 three scientists were awarded a Nobel Prize in chemistry for discovering a molecule called Carbon 60, also known as C60. C60 is a naturally occurring molecule of carbon, with 60 tiny atoms, shaped like a cage-like soccer ball. C60 contains astonishing therapeutic properties which are thought to be several hundred times more powerful than conventional antioxidants. More information about the science research behind C60 can be found at [whatisc60.org](http://whatisc60.org).

“

C60 Sexy is an unscented, safe, completely edible massage oil made with 100% certified organic cold-pressed avocado oil and 99.99% pure, sublimated Carbon 60 fullerenes.”

C60 works at the cellular level to lift the oxidative burden. It neutralizes free radicals and optimizes mitochondrial function. Most people notice an increase in energy and mental clarity after consuming C60 daily for 30 days or

more.

In the process of developing new uses for this amazing molecule, ShopC60.com stumbled upon another amazing use for C60 that nobody ever saw coming: quicker recovery time, improved performance, and greater energy. This insight led to the creation of C60 Sexy.

"C60 Sexy is an unscented, safe, completely edible massage oil of the highest quality and purity, made with 100% certified organic cold-pressed avocado oil and 99.99% pure, sublimated Carbon 60 fullerenes, which have never been exposed to solvents," said Jessica MacNaughton, C60 Shop, Inc.'s CEO. "The convenient, 3 oz pump bottle makes generous application easy so you can enjoy relaxing massages and lasting connection with your partner."
