The key highlights of the report include:

Market Overview (2017-2027)

Forecast CAGR (2022-2027): 6%

The growing utilisation of eggshell membrane in the food and beverage industry owing to the increasing inclination towards bodybuilding and fitness, increasing demand for bakery and confectionary products, and increasing awareness about the multiple nutritional benefits of

eggshell membrane are major driving factors in the market. Meanwhile, eggshell membrane is a crucial ingredient in the personal care and cosmetics industry.

Hence, the rising demand for cosmetic products due to the rising standards of living and increasing inclination towards beauty and hygiene is anticipated to spearhead the demand for the product in the forecast period. Geographically, the Asia Pacific region accounts for a significant share in the market owing to the presence of high population base in India and China and increasing consumption of egg among the working-class population in order to meet the nutritional demands.

### Industry Definition and Major Segments

Eggshell membrane is defined as a dietary supplement which is found in the egg of a bird. It is visible when one peels off the outer shell of the egg. The primary constituent of an eggshell membrane is protein and has a two-layered, reticulated structures. The interior of the membrane is dense and is crucial for the maintenance of healthy joints and tissues. Moreover, eggshell membrane is utilised in a variety of food, cosmetics, and fibre products.

On the basis of product, the market can be segmented into:

- Capsule
- Tablet
- Powder
- Others

Based on type, the market can be classified into:

- Hydrolysed
- Unhydrolysed

The market can be segmented based on application into:

- Nutraceuticals
- Food and Beverages
- Personal Care and Cosmetics
- Pharmaceuticals
- Others

The regional markets for eggshell membrane include:

North America

Europe

Asia Pacific

Latin America

Middle East and Africa

## Market Trends

The key trends in the eggshell membrane market include the increasing demand for the product in the pharmaceutical industry owing to the fact that eggshell membrane is effective and safe for the treatment of pain and stiffness associated with knee osteoarthritis. In addition to this, the demand for the product will further be bolstered by the increasing sales of pharmaceutical products through online platforms. Meanwhile, the favourable policies by the food safety authorities encouraging the production eggshell membranes by major companies are anticipated to be other key trends in the market. For instance, in December 2021, Food Safety and Regulatory Authority of India (FSSAI) announced the approval of NEM, a branded eggshell membrane ingredient.

## Key Market Players

The major players in the market are Biova LLC, Kewpie Corporation, Ecovatec Solutions Inc, Eggново SL, Dutch Eggmembrane Protein Powder (DEPP) B.V., and Bolise Co., Limited, among others. The report covers the market shares, capacities, plant turnarounds, expansions, investments and mergers and acquisitions, among other latest developments of these market players.
