

# AppSec Phoenix Welcomes John Kinsella Cybersecurity Leader and Podcast Star to Its Board

*John's leadership and experience in the cybersecurity field strengthen the leadership, vision, and validation of the AppSec Phoenix Platform.*

LONDON, UNITED KINGDOM,  
September 26, 2022 /

EINPresswire.com/ -- [AppSec](#) Phoenix, the next-gen leader in Vulnerability and Posture Management for Cloud and Application security, has announced the addition of John Kinsella to its advisory board. John joins the firm as an advisor adding to the board years of leadership and experience.

John is an acclaimed leader, advisor, and investor. John Kinsella is the co-founder & CTO of Cysense, previously, he was the co-founder and CPO of Layered Insight (acquired by Qualys). His 20-year background has focused

on application and network security, from initial design through business-critical production operations. He has brought several enterprise security products to market, consulted internationally on information security topics, and worked with international governance bodies to define security standards and best practices for cloud computing. Additionally, he is the co-host of the highly-rated Application Security Weekly podcast.

"We are honoured to have John on our advisory board," said [Francesco](#) Cipollone, CEO and founder of AppSec Phoenix. "John brings field perspective, vision and execution experience, having successfully created and exited previous startups. John is a well-respected leader in the industry, I speak on behalf of the entire AppSec Phoenix team when I say that we are excited and honoured to have such an impressive leader in our advisory board."

SECURITY

AppSec Phoenix Next Gen Risk-Based Vulnerability  
Management Platform

"I am thrilled to be part of AppSec Phoenix's advisory board and invest in the firm's mission as it looks to scale its efforts and influence as a leader in the risk vulnerability sector," John said. "As an Appsec practitioner, I saw first what complexity does to an application and cloud security program. Appsec Phoenix understands how to execute at-scale cloud security and application security programs, linking applications to deployment. I am excited to see innovation that helps to simplify, visualize and prioritize.

John joins an advisory board that boasts several notable names in the cybersecurity sector, including:

- Andrew Peterson led Signal Science,

a leading cybersecurity product, for five years before it sold to Fastly for \$775M. Peterson brings startup knowledge, international support, exposure to the US market, and key introductions to customers. His insight into the American market and its current trends and his contacts with
