

Collagen Peptides Market Size, Share, Growth, Regional Trends, Business Opportunities, Competition and Forecast to 2028

Expanding collagen peptides applications in nutritional products, food & beverages, pharmaceuticals, and cosmetics are some key factors driving market growth

VANCOUVER, BC, CANADA, September 20, 2022 /EINPresswire.com/ -- The global [collagen peptides market](#) size is expected to reach USD 913.1 Million in 2028 and register a CAGR of 5.1% over the forecast period, according to latest analysis by Emergen Research. The movement in consumer preferences toward a healthy lifestyle and the rising use of collagen peptides in nutritional items, medicines, and cosmetics can be ascribed to the predicted revenue increase that has been steady.

Collagen peptides' psychological and nutritional attributes provide a number of health advantages, including reducing soreness in the muscles after strenuous exercise, enhancing joint health, promoting muscle growth, supplying energy while exercising, and fortifying skin by assisting the body in producing more collagen and hyaluronic acid, as well as preventing bone loss. Collagen peptides are being more widely used as a fundamental ingredient in food and drinks due to their wide variety of applications and several health advantages, and this trend is anticipated to continue driving growth of the collagen peptides market in the future.

“ Collagen Peptides Market Size – USD 608.7 Million in 2020, Market Growth – at a CAGR of 5.1%, Market Trends – increasing use of collagen peptides in nutritional products.”

Some Key Highlights in the Report

In January 2021, Nitta Gelatin, which is a leading manufacturer of gelatin in India, launched premium gelatin with Japanese technology in the HoReCa category. The premium gelatin will allow food connoisseurs to prepare various desserts, jellies, frozen sweets, soft candies, and marshmallows at international standards.

In April 2020, GELITA AG launched new product – VERISOL GELITA – which contains bioactive collagen peptides, which is an essential component for supporting healthy skin. VERISOL is scientifically proven to have positive results on overall skin conditions.

North America accounted for largest revenue share in 2020 due to increasing application of collagen peptides in supplements owing to multifunctional properties such as reducing muscle soreness, controlling arthritis, improving overall bone health, and alleviating some skin conditions. An increasing number of consumers in the U.S. and Canada are incorporating collagen-based products into their diet for better health and nutrition.

The report is an investigative study of the technological developments and product advancements, along with a regional analysis for each product and application offered in the market. The fundamental objective of the report is to give an insight into the workings of the Collagen Peptides industry. It provides an accurate and strategic outlook of the market with a thorough assessment of the segments and sub-segments of the market. It provides a panoramic view of the industry to offer a deeper understanding of the global industry

Emergen Research has segmented the collagen peptides market based on source, form, application, and region:

Source Outlook (Revenue, USD Million; 2018–2028)

Bovine

Porcine

Marine & Poultry

Form Outlook (Revenue, USD Million; 2018–2028)

Dry

Liquid

Application Outlook (Revenue, USD Million; 2018–2028)

Nutritional Products

Food & Beverage

Pharmaceuticals

Cosmetics & Personal Care Products

The report further studies the key companies operating in the industry and their company profiles, product portfolio, expansion strategies, and strategic alliances such as mergers and acquisitions, collaborations, and joint ventures, among others. It also offers insights into their market reach and global position, along with highlights about their achievements and financial standings.

Key companies operating in the Collagen Peptides market include:

Gelita AG, Tessenlo Group, Holista Colltech, Darling Ingredients, Nitta Gelatin, Amicogen Inc., Ewald-Gelatine, Nippi Inc., Weishardt, and Vital Proteins.

Regional Overview:

The global Collagen Peptides market has been categorized on the basis of key geographical regions into North America, Asia Pacific, Europe, Latin America, and Middle East & Africa. It evaluates the presence of the global Collagen Peptides market in the major regions with regards to market share, market size, revenue contribution, sales network and distribution channel, and other key elements.

Highlights of Table of Contents (TOC):

Overview of Global Collagen Peptides Market

Competitive analysis of the Collagen Peptides market

Regional analysis of Global Collagen Peptides market production and revenue

Regional analysis of Global Collagen Peptides market supply, consumption, and export & import

Type-based market analysis of global Collagen Peptides production, revenue, and price trends

Application-based analysis of the global Collagen Peptides market

Manufacturer profiles, manufacturing cost, and upstream and downstream analysis of global Collagen Peptides market

Global Collagen Peptides market forecast (2021-2028)
