An online pharmacy, also known as an e-pharmacy (or mail-order pharmacy), is one that works over the Internet. It sends orders to customers via mail or through shipping companies. An online pharmacy could include Pharmacy benefit manager – A large administrator of corporate drugs plans. With the advent of the internet, the first online pharmacies appeared in the 1990s. These were initially businesses that set up websites to sell drugs not available in traditional brick-and-mortar pharmacies. The US Food and Drug Administration (FDA) approved the first online pharmacy in 1994. There are now thousands of online pharmacies.

Global Online Pharmacy (E-Pharma)
Market
