

Air Dried Vegetables Market | Presents Strong Revenue Visibility in Near Future Booming at a CAGR during 2029

Air Dried Vegetables Market Type, Form, Nature, End User, Application : Global Opportunity Analysis and Industry Forecast, 2022-2029

PORTLAND, OR, UNITED STATES,
September 20, 2022 /

EINPresswire.com/ -- [Air-dried vegetables](#) are the vegetables from which water is eradicated, which helps them for preservation over an elongated period. There are different methods to dehydrate vegetables, such as vacuum drying, spray drying, freeze-drying, air drying, and many among others. The method of air-drying vegetables helps them from getting spoiled and extends the life of the vegetables. Air-drying vegetables expels harmful pathogens while conserving vital nutrients. Also, Air-drying vegetables give nutritional value comparable to a raw diet. These vegetables are consumed worldwide, due to the broad acceptance of convenience and packaged food products. The nutritive content in the vegetables does not get lost through the air-drying process, and hence, it is widely accepted.

Air Dried Vegetables Market

The Asia Pacific air-dried vegetable market is expected to witness growth in the market in the upcoming years, due to the large export of vegetables made by countries like India and China. While countries like Europe and the U.S. are anticipated to create enormous demand opportunities, increasing the imports of these products. This, in turn, drives the growth of the market.

Companies covered: Olam, Richfield, Natural Dehydrated Vegetables, Jain Irrigation Systems, Sensient, Eurocebollas, Silva International, Jaworski, Fuqiang, Maharaja Dehydration, Dingfang, Garlico Industries, BCFoods, Steinicke, and Mercer Foods.

COVID-19 Scenario Analysis:

Due to the COVID-19 pandemic lockdown is prevailing in almost every country.

Laborers are not available, and all the production units have been shut down by the government, hindering the production of processed food.

Corona outbreak has forced the people to stockpile the food and beverage having a longer shelf life at their homes.

Manufacturers are not able to meet the demand of consumers, leading to a hike in the prices of food.

The supply chain has been disrupted, causing problems regarding the transportation of goods, and also the export-import of goods from one country to another country.
