

Aerospace Coatings Market Worth \$2.5 Billion by 2027 At A Growth Rate of 7.0% - IndustryARC

The Increase in Demand of Military Aircraft, in Turn Boosts The Global Aerospace Coatings Market Growth.

HYDERABAD, TELANGANA, INDIA,
September 20, 2022 /

EINPresswire.com/ -- IndustryARC, in its latest report, predicts that The [Aerospace Coatings Market](#) size is forecasted to reach US\$2.5 billion by 2027 after growing at a CAGR of 7.0% during the forecast period of 2022-2027. Aerospace coatings are made using the chromate conversion

coatings which helps to improve aircraft efficiency and overall performance. Moreover, rapid globalization is encouraging the adoption of private jets for business travel, which is also contributing to the market growth. The report offers a complete analysis of the market, its major segments, growth factors, trends, drivers and challengers, key players and more.

Key takeaways :

1. The aerospace coatings market size is increasing due to high demand for applications in cabin coatings, seating area, ceiling panels, and others. Thus, it will drive the market growth for the aerospace coatings market during the forecast period.
2. Aerospace coatings have substantial growth opportunities in demand for water-borne coatings. This factor is projected to propel the market growth in the coming years.
3. North America held a key share of the aerospace coatings market in 2021. A rise in demand due to general aviation and commercial from the countries like United States is anticipated to

Market Research Reports, Business Consulting
Services & Analytics

augment the market growth during the forecast period.

Segmental Analysis :

1. Epoxy resin held the largest share of over 21% in the aerospace coating market in the year 2021. Epoxy resin refers to a type of reactive prepolymer and polymer containing epoxide groups. As a result, the polymers become elastic and tough. This makes them ideal for various applications.

2. General aviation held the largest share of around 37% in the aerospace coatings market in 2021. General Aviation is the term for all civil aviation operations other than military operations or scheduled air transport operations. It includes both commercial and non-commercial activities, performed by light piston aircrafts, turboprops, helicopters, and up to business jets and large VIP aircrafts.

3. North America dominated the aerospace coating market in the year 2021 with a market share of around 39%, followed by Asia-Pacific. With growing commercial aviation in countries like the United States and Canada, the consumption of aerospace coatings is increasing in this region.

Competitive Landscape :

The top 5 players in the Aerospace Coatings Industry are -

1. Akzo Nobel N.V.

2. BASF SE

3. Hardide plc.

4. Henkel AG & Co. KGaA

5. Hentzen Coatings
