The key highlights of the report include:

Market Overview (2016-2026)

Historical Market Size (2020): USD 439.6 Million

Forecast CAGR (2021-2026): 18.3%

Increasing urbanisation and rising disposable incomes around the world are driving the market demand. The rising adoption of smart helmets by motorcyclists and bicyclists can also be attributed to the market's development. Increased two-wheeler sales are also expected to help the industry expand. Also, governments enforcing stringent road safety rules are also expected

to drive the industry forward. In addition, the increased attention of regulatory authorities on limiting driver cell phone use is expected to help the industry expand even further. In the coming years, rising developments and technological advances in the industry are expected to drive the market.

Industry Definition and Major Segments

Smart helmets have features that provide the user with a high degree of protection by offering details about the environment. It also allows the user to use their voice to control their phone's applications.

On the basis of type, the smart helmet industry is segmented into:

- Full Face
- Half Face
- Hard Hat

By component, the smart helmet market can be divided into:

- Communication
- Navigation
- Camera
- Others

The smart helmet market can be categorised based on end-use into:

- Cycling and Motorcycling
- Industrial
- Construction
- Others

Regionally, the smart helmet industry is classified into:

- North America
- Latin America
- Europe
- Middle East and Africa
