“Sometimes a [backpack](#) just isn't big enough to fit everything needed for an esports tourney or a weekend getaway,” explains Paul June, VP of Marketing for CORE Gaming. “This new duffel can store and carry a lot of gaming gear, tech, personal items and supplies, and even a change of clothes and snacks.”

Made of ballistic nylon, the duffel is rugged and durable. It's roomy, too, measuring 26 inches wide, 15.6 inches high,

and 15.5 inches wide. Storage areas include a large main compartment that's 22 inches wide, 15 inches high, and 13 inches wide, plus two large, zippered side sections and a rigid, separate, zippered bottom compartment.

The duffel's interior sections are pre-wired for quick connection to a mobile power bank, so gear can be charged while inside. There's also an external USB 3.0 Quick-Charge compatible port for

connecting practically any USB device. Just plug in and there's no need to remove the charger from the duffel.

Other features include an adjustable shoulder strap and convenient, easy-access front pockets for ID and credit cards, keys, and other small items.

For those wanting to showcase a school, company, or esports team patch, the Duffel's Velcro front panel makes it easy to attach hook-and-loop emblems and other cool patches.

Editor's Note: SAMPLES ARE AVAILABLE FOR REVIEW. Supplies are limited.
