Protection, Organization, and a Lifetime Warranty for Professionals, Students, and Gamers

“

Our lineup of products has expanded significantly over the years. What hasn't changed is our unwavering commitment to quality and customer satisfaction.”

Paul June, VP of Marketing

“Our lineup of products has expanded significantly over the years,” says Paul June, VP of Marketing for Mobile Edge. “What hasn't changed is our unwavering commitment to quality and customer satisfaction.”

From day one, Mobile Edge has offered a lifetime warranty on its bags and protective cases, plus a 100% customer satisfaction guarantee. It's the strongest such policy in the industry.

Over the years, Mobile Edge has pioneered numerous carrying solutions and designs. Highlights include:

- Mobile Edge's ECO Collection of environmentally friendly backpacks and messenger bags, is made with all-natural cotton canvas or from corn-based materials for minimal carbon footprints compared to bags made from synthetic materials.
- TSA-compliant ScanFast™ technology speeds travelers through airport security without the need for travelers to remove their electronics from their briefcases, backpacks, and bags.

- Fashionable women’s laptop bags and totes that incorporate designer-quality materials, such as the ScanFast Onyx Briefcase Checkpoint Friendly Laptop Bag or the Scan Fast™ Onyx Backpack.

- Lightweight, durable, and ergonomic backpacks designed to meet the unique needs of middle school, high school, and college students, featuring the SmartPack Backpack, the Express Backpack 2.0, and the new Commuter Backpack for commuting students.

- Award-winning gaming backpacks designed for gamers by gamers, such as the CORE Gaming Backpack, the CORE Gaming Tactical Backpack, and Alienware backpacks, such as the Alienware M17 Pro Backpack and the Alienware Area-51m Elite Backpack. (There’s even a limited, special edition version of the CORE Gaming Backpack that swaps red accents and piping for white to bestow a cool, modern look.) All cases, backpacks, and bags feature dedicated storage for laptops, tablets, and smartphones, plus pockets and sections for accessories, cords, and even personal items.

CORE Gaming backpacks have interior sections that are pre-wired for quick connection to a mobile power bank, so gear can be charged while inside. They also feature an external USB 3.0 Quick-Charge compatible port for connecting practically any USB device. Just plug in and there’s no need to remove the charger from inside.

Mobile Edge also offers a growing lineup of mobile accessories designed to boost connectivity and productivity for people on the go. Items include mobile power solutions, charging stations, and USB adapter hubs.
