

Textile Chemicals Market Size Worth 29.40 Billion by 2028 with a CAGR of 4.3%

Rising demand for technical textiles and increasing usage of biodegradable and low VOC materials for textile manufacturing are some key factors driving market

VANCOUVER, BC, CANADA, September 21, 2022 /EINPresswire.com/ -- The global [textile chemicals market](#) size reached USD 21.23 Billion in 2020 and is expected to register a revenue CAGR of 4.3% during the forecast period, according to latest analysis by Emergen Research. Rising demand for technical

textiles as well as increased use of biodegradable and low Volatile Organic Compound (VOC) materials in textile manufacturing are some key factors driving global textile chemicals market revenue growth. In addition, increasing urbanization and industrialization in countries across the globe are trends projected to continue to support revenue growth of the market between 2021

and 2028. Textile manufacturers and vendors are rapidly being compelled to provide textiles that are sustainably manufactured and free of harmful chemicals due to stringent regulations by governments, initiatives by non-governmental organizations, and shifting preferences among end-users.

There has been numerous research and development activities are underway to enhance Textile Chemicals products and new innovative technologies. The report deals with numerous research objectives, investments

“

Textile Chemicals Market Size – USD 21.23 Billion in 2020, Market Growth – at a CAGR of 4.3%, Market Trends – Increasing urbanization and industrialization globally”

Emergen Research

plans, business strategies, import-export scenario, and supply-demand scenario. To help in strategic planning, key stakeholders can use the tables and figures from this report to gather statistics. It provides insights into key production, revenue and consumption trends for players in order to increase sales and growth within the global Textile Chemicals Market.

Textile Chemicals Market Report 2021 is one of a series of new reports from The Emergen Research Company that provides plant factory industry overview, Textile Chemicals market analysis and forecasts market size and growth for the global plant factory market, Textile Chemicals market segments and geographies, Textile Chemicals market players, Textile Chemicals market leading competitor revenues, profiles and market shares. The plant factory market research report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

Textile Chemicals Market: Analysis by focusing on Competitive landscape and Key Developments

BASF SE, Wacker Chemie AG, Solvay S.A., Huntsman Corporation, The Dow Chemical Company, Sumitomo Chemicals Co. Ltd., The Lubrizol Corporation, Tata Chemicals Limited, Kemira Oyj, and Evonik Industries AG

Access the full study findings here: <https://www.emergenresearch.com/industry-report/textile-chemicals-market>

The research then uncovers market opportunities that are simple and gives the business valuable information that will help it thrive in the global Textile Chemicals market. The report contains detailed information on the factors that will increase the market's growth over the next few years, from 2021-2028. The report discusses market segmentation, key players and types of applications, as well as rapid growth in key markets.

key findings from the report suggest

Technical textile segment revenue is expected to expand at a significantly rapid CAGR during the forecast period due to increasing usage of textile chemicals in technical textiles. Usage is expected to rise due to rising awareness about better function and uses of such products in various industries.

Coating & sizing agents segment is expected to register a significantly robust revenue growth rate over the forecast period. Sizing chemicals are widely used to improve yarn abrasion strength and resistance in weaving. Use of sizing chemicals lowers weaving hazards, including yarn fraying and breakage during weaving process.

Asia Pacific is expected to register a significantly rapid revenue growth rate over the forecast period. Low manufacturing costs in countries in Asia Pacific, along with rapid introduction of cutting-edge technologies in the manufacturing process by companies is expected to drive revenue growth of the market in this region.

The report further divides the Textile Chemicals market into key segments such as types, applications, end-user industries, technologies, and key regions of the market. The report also sheds light on the segment and region exhibiting promising growth in the Textile Chemicals market.

Emergen Research has segmented the global textile chemicals on the basis of product type, fiber type, application, and region:

Product Type Outlook (Volume Tons, Revenue, USD Billion; 2018–2028)

Colorants & Auxiliaries

Fixative

Dispersants & Levelant

UV Absorber

Other

Coating & Sizing Agents

Finishing Agents

Flame Retardants

Repellent and Release

Antimicrobial & Anti-inflammatory

Other

Bleaching Agents

Desizing Agents

Yarn Lubricants

Scouring Agents

Surfactants

Detergents & Dispersing Agents

Wetting Agents

Lubricating Agents

Emulsifying Agents

Others

Fiber Type Outlook (Volume Tons, Revenue, USD Billion; 2018–2028)

Natural Fiber

Synthetic Fiber

Application Outlook (Volume Tons, Revenue, USD Billion; 2018–2028)

Home Textile

Drapery

Furniture

Carpet

Others

Apparel

Innerwear

Outerwear

Sportswear

Others

Technical Textile

Others

The study segments the Textile Chemicals industry in light of major classification such as product

type, potential markets, application, and end-user. This industry assessment for the forecast period, 2021 – 2028 incorporates projections pertaining to the investment feasibility, gross margin, profits, consumption volume, production capability and major market vendors. Likewise, statistics associated with the competitive landscape, shifting consumer behaviour and spending power is showcased and well-explained with the help of treasured resources such as charts, graphs and graphic images, which can be easily incorporated in the business or corporate presentations.

How will the Textile Chemicals Market, 2021 to 2028 report help you?

In summary, our 250-page report provides you with the following knowledge:

- Revenue forecasts to 2028 for Textile Chemicals Market, 2021 to 2028 Market, with forecasts for include report segmentation and company size, each forecast at a global and regional level – discover the industry's prospects, finding the most lucrative places for investments and revenues.
- Revenue forecasts to 2028 for four regional and 20 key national markets – See forecasts for the Textile Chemicals Market, 2021 to 2028 market in North America, Europe, Asia-Pacific and LAMEA. Also forecasted is the market in the US, Canada, Mexico, Brazil, Germany, France, UK, Italy, China, India, Japan, and Australia among other prominent economies.
- Prospects for established firms and those seeking to enter the market – including company profiles for 15 of the major companies involved in the Textile Chemicals Market, 2021 to 2028.

Find quantitative and qualitative analyses with independent predictions. Receive information that only our report contains, staying informed with invaluable business intelligence.

Key point summary of the report:

The report offers a comprehensive overview of the market size, share, and growth rate in the forecast duration.

It provides details about current scenario, historical data, giving an accurate market forecast for the coming years.

The study categorizes the market on the basis of product types, applications, end users, market value and volume, business verticals, and 5 major regions.

It also offers regional market analysis and forecast for prominent geographies in the sector viz.,

North America, Europe, Asia Pacific, Latin America, and the Middle East and Africa.

Industry supply chain, sourcing strategy, upstream feedstock, and downstream demand analysis has also been undertaken in the research report.

The study offers a comprehensive understanding of the demand and supply dynamics, including production and consumption rates, and mapping of the overall market.

The report employs different analytical tools including, SWOT analysis, Porter's five forces analysis, and pricing analysis, to give precise market information.
