MyLand Metaverse™ is the premier NFT-ready Metaverse, based on virtual land ownership in the world's first Earth-based Metaverse which is supported by all credit cards and major crypto payment methods. MyLand Earth-based Metaverse is set to create a 3rd party app development platform that allows application, game developers and content creators to create a 3D replica of the physical Earth, providing an immersive experience for global Metaverse users. Users will visit MyLand Metaverse™ Earth locations, be entertained, enjoy virtual travel, social networking, attend sports events, music concerts etc. Initiated by a team of seasoned Blockchain engineers, digital artists and Silicon Valley entrepreneurs, MyLand Metaverse™ set to launch its Initial Exchange Coin Offer in Q1 2023.

Since its June 28th gaming platform launch, over 80,000 virtual land lots in NFTs were sold in the first month of the launch. Global gamers, application developers, digital content creators and Metaverse enthusiasts flocked to MyLand Metaverse™ website on www.myland.earth for the MyLand's unique digital Earth design and cost-effective land availability.

MyLand Metaverse™ plans to create world-class travel destinations with Metaverse experiences for online users to be able to enjoy Metaverse immersive experiences and tours of such natural landmarks Himalayas and Eiffel Tower, from the comfort of their living room anywhere in the world.

“Metaverse land sale and real estate trading is only a transitional step on our platform”, says Myland Metaverse Project Leader, Kevin McInerney, continues, “On the MyLand Metaverse Platform, we will have a community of global digital artists, content creators, Metaverse investors, application and game developers all work together to build our Metaverse and reach to our virtual destination in next couple of years. The transformation from traditional internet to web 3 will be massive.”
