

# Manufactured Housing Association for Regulatory Reform Spotlights Years of Manufactured Home Production-Shipment Data

*MHARR announced accurate monthly facts on national manufactured housing production/shipments. This brings the MHIndustry into line with NAR, NAHB, or RVIA data.*

WASHINGTON, D.C., USA, September 21, 2022 /EINPresswire.com/ -- Sources inside and outside of the manufactured home industry have remarked that obtaining factually accurate information, along with evidence about hot button industry topics and trends can be difficult to obtain. So, the Manufactured Housing Association for Regulatory Reform (MHARR) has announced to mainstream media and other researchers the largest known collection of manufactured housing statistics from a manufactured home industry connected professional source.

Once monthly, MHARR issues a national new manufactured home report that cites official data collected on behalf of federal officials. That same report also provides a running tally of the top ten states in the U.S. for manufactured home shipments. That hub or category on the [ManufacturedHousingAssociation.org](https://www.ManufacturedHousingAssociation.org) website is found at the link below.

**Higher HUD Code Manufactured Housing Production in July 2022**

Higher HUD Code Manufactured Housing Production In July 2022 per the Washington, D.C. based Manufactured Housing Association for Regulatory Reform (MHARR).

				
State	Cumulative	Current Month (July 2022)	2022	2021
1. Texas	150,089 homes	1,466	12,629	10,630
2. Florida	55,997 homes	671	5,236	4,270
3. Louisiana	49,694 homes	352	3,326	3,251
4. N.C	39,738 homes	486	3,891	3,541
5. Alabama	39,360 homes	428	4,773	2,911
6. Mississippi	31,348 homes	252	2,441	2,581
7. Michigan	30,787 homes	406	2,783	2,298
8. California	30,006 homes	305	2,337	1,963
