Drivers, Restraints, and Opportunities

Ageing population, increase in prevalence of chronic disorders, applications of IONM in different surgeries, and risk management through IONM during complex surgeries drive the market. However, low awareness of IONM in developing nations and lack of skilled professionals restrain the market growth. Increase in medical tourism and growth opportunities in the emerging economies of the Asia-Pacific and LAMEA regions are expected to provide several opportunities for key players. According to the report, the global intraoperative neuromonitoring (IONM) market was valued at \$3,036 million in 2015, and is projected to reach \$4,900 million by 2022, growing at a CAGR of 7% from 2016 to 2022.

Impact Analysis – Intraoperative Neuromonitoring (IONM) Market Research

Analysts at Allied Market Research constantly monitor the Intraoperative Neuromonitoring (IONM) industry factors with impacts of current events; with this study an update of how industry players have tackled latest scenario and what key strategies have made significant difference is showcased.

Key Highlights from Intraoperative Neuromonitoring (IONM) Market Study.

Revenue and Sales Estimation – Historical Revenue and sales volume is presented and further data is triangulated with top-down and bottom-up approaches to forecast complete market size and to estimate forecast numbers for key regions covered in the report along with classified and well recognized Types and end-use industry. Additionally, macroeconomic factor and regulatory policies are ascertained in Intraoperative Neuromonitoring (IONM) industry evolution and predictive analysis.

FIVE FORCES ANALYSIS – In order to better understand Intraoperative Neuromonitoring (IONM) market condition five forces analysis is conducted that includes Bargaining power of buyers, Bargaining power of suppliers, Threat of new entrants, Threat of substitutes, and Threat of rivalry.

Competition – Leading players have been studied from Intraoperative Neuromonitoring (IONM) Industry depending on their company profile, product portfolio, capacity, product/service price, sales, and cost/profit.

Demand & Supply and Effectiveness – Intraoperative Neuromonitoring (IONM) report additionally provides distribution, Production, Consumption & EXIM** (Export & Import). ** If applicable
