

Guardian Digital Raises Awareness of Modern Email Risks, Helps Businesses #BeCyberSmart

NEW JERSEY, UNITED STATES, October 3, 2022 /EINPresswire.com/ -- Guardian Digital is celebrating Cybersecurity Awareness Month with a series of educational and practical initiatives in October, designed to inform businesses on how to better protect their users from the most advanced email security threats.

Recognized as a "Champion" by the National Cyber Security Alliance, Guardian Digital has pledged to promote a safer, more secure and more trusted internet through education and by offering resources that make our connected world safer and more resilient for everyone.

Over 90% of cyberattacks begin with a phishing email. Using Guardian Digital resources including the [Email Security Assessment Toolkit](#), [EnGarde Cloud Email Security Real-Time Dashboard](#), and [Email Security Tips](#), businesses can learn about the most significant threats to organizations today, and how they can better protect their users from them.

Email Security Assessment Toolkit - helps organizations understand their email security risk exposure for both Microsoft 365 and Google Workspace, and provides recommendations they can take to reduce it now.

Email Security Tips - detailed tips and guidance on how organizations can learn to recognize email threats and how to implement email security safeguards to increase email security resiliency.

EnGarde Cloud Email Security Real-Time Dashboard - this intuitive dashboard offers businesses

complete visibility into the security of their email and the threats targeting their organization.

Cybersecurity Awareness Month is a collaborative effort between government and industry to provide everyone with the resources they need to stay safer and more secure online. Now in its 19th year, this effort has grown exponentially, reaching consumers, small and medium-sized businesses, corporations, educational institutions and young people across the nation.

Guardian Digital's email protection is a fully-managed cloud-based solution suitable for companies of all sizes that equips businesses with the innovative technology and cybersecurity expertise required to block advanced threats like targeted spear-phishing and ransomware, make informed cybersecurity business decisions, and safeguard their users, their data and their brand from expensive, damaging attacks and breaches.

#BeCyberSmart and strengthen the security of your email with these great tools, not only for Cybersecurity Awareness Month but all year round.

About Cybersecurity Awareness Month

Cybersecurity Awareness Month is designed to engage and educate public- and private-sector partners through events and initiatives with the goal of raising awareness about cybersecurity to increase the resiliency of the nation in the event of a cyber incident. Since the Presidential proclamation establishing Cybersecurity Awareness Month in 2004, the initiative has been formally recognized by Congress, federal, state and local governments and leaders from industry and academia. This united effort is necessary to maintain a cyberspace that is safer and more resilient and remains a source of tremendous opportunity and growth for years to come.
