town in Maine. With each new death, a new dark secret seems to emerge that shocks everyone to their core and leaves them all wondering if anything truly is as it seems to be. But worse, Joanna cannot help but wonder if there is someone behind these events, someone who is constantly watching her and her daughter, Jilly.

Even when the pair of women attempts to move to another town to start fresh, new dark events occur that feel a little too familiar, and Joanna cannot help but

wonder if the darkness is not something that they can leave behind.

Despite these terrible events, Jilly eventually finds herself drawn back to the town she called home in her childhood, only for the memories of what happened to begin creeping back. With the lingering feeling that there is someone ominous lurking about the town, causing trouble and perhaps now watching Jilly instead of her mother, she can't help but wonder if there was more to her mother's worries than she ever gave her credit for.

With suspense, murder-mystery-style deaths, a lurking presence and a story that seems to go bump in the night, this trilogy is sure to keep any fan of thrillers turning the pages to the very end — and awake long after the book is closed. It's a story of trying to heal and begin again, interrupted by mistakes that are handed down from one generation to the next, all while trying to escape someone else's obsession.
