

University program for Hack-proof store & secure share of research & IP

i2Chain offers researchers the capability to hack-proof and theft-proof store & share encrypted research, IP, and others.

SAN FRANCISCO, CALIFORNIA, USA,
September 22, 2022 /

EINPresswire.com/ -- Recently the FBI's Cyber Division sent a "private industry alert" warning of threat actors attacking US colleges and universities, leading to the exposure of crucial research information on these underground forums.

Today in a [Senate Hearing Committee on Protecting American Innovation](#):

Industry, Academia, and the National Counterintelligence and Security Center, Mark Warner, United States Senator & Chair of the committee, stated, "As much as \$600 billion worth of US intellectual property is stolen each year." Mr. Warner encouraged academia and industry to collaborate in protecting sensitive information from global adversaries and state actors.

“

As much as \$600 billion worth of US intellectual property is stolen each year”

Mark Warner, Chair, US Senate Select Committee on Intelligence

The American universities are iconic in their ability to attract global talent that contributes to innovation, invention, and advancements globally", says [Ajay Jotwani](#), Co-founder & CEO of [i2Chain](#). Mr. Jotwani further adds, "hence, we are offering a 90% discount on our subscription to the American Universities under the i2Chain's University Program to enable theft-free & hack-proof protection of their key artifacts."

Mainak Trivedi, Vice President, Engineering & Operations, says, "Chain APIs can auto-create non-
