

# Military Communications Market worth \$37.2 Billion by 2026 at a growth rate of 4.3% - IndustryARC

*Ongoing Developments Drives Market  
Military Communications Market Growth*

HYDERABAD, TELANGANA, INDIA,  
September 22, 2022 /

EINPresswire.com/ -- IndustryARC, in its latest report, predicts that [Military Communications Market](#) is forecast to reach \$37.2 billion by 2026, growing at a CAGR of 4.3% from 2021 to 2026. The Military Communications Market is estimated to witness a sustainable growth over the forecast period

majorly because of its applications in Governmental Organizations in embedded systems for communications. In day-to-day lives where end users come through many situations in which human life and other services for society are at risk and end-users require next-level communication flexibility, vast coverage, high capacity, high security, high data rate and low latency satellite communications between first responders and the receiver. It is essential to avoid or at least reduce damage during any sort of communication process. Rise in security concerns of various industries and fast-growing technology in communication sector is expected to drive the market growth. The report offers a complete analysis of the market, its major segments, growth factors, trends, drivers and challengers, key players and more.

Segmental Analysis:

1. Long-term Evolution (LTE) has dominated the Military Communications Market with 32% share in 2020 as compared to the other Network technologies. LTE network provides more efficient and faster way of communication as compared to other network technologies such as software defined radio.
2. North America accounts for the highest market among other regions by geography at 38.5% in 2020. The market growth in this region is predominantly rising due to economies such as United States, Canada and Mexico.
3. Increase in deployment of HF radios especially in military end-user applications is anticipated to drive the military communication market growth. The global HF Radio Market size is estimated to grow at a CAGR of 5.1% during the forecast period 2021-2026.

Competitive Landscape:

The top 5 players in the Military Communications industry are -

1. Ascom
2. Cobham Wireless
3. Ericsson
4. Harris

## 5. Huawei
