Key Takeaways:

This IndustryARC report on the Aerosol Market highlights the following areas -

1. The Asia-Pacific region dominates the Aerosol Market size owing to the rising growth in the food & beverages industry. For instance, in February 2022, TH Group commenced the development of the Thai Binh food processing factory in the northern province of Thai Binh's Quynh Ph? district in Vietnam. The overall cost of the project reached up to VND 620 billion (approx. US\$ 27 million) and aims at producing fresh, clean and completely natural food

products.

Rapidly rising demand for aerosol in the food & beverage industry for cleaning, glazing, sanitizing and portioning applications has driven the growth of the aerosol market.

2. The increasing demand for aerosol in the personal care sector, due to its usage in deodorants and hair care products, has been a critical factor driving the growth of the aerosol market in the upcoming years.

3. However, the rising environmental and health effects of aerosols can hinder the growth of the aerosol industry.
