

Global Contraceptives Market is projected to be worth USD 20.27 billion by 2030

According to SPER Market Research, the Global Contraceptives Market is estimated to reach USD 20.27 billion by 2030 with a CAGR of 5.9%.

HOLTSVILLE, NEW YORK, UNITED STATES, September 22, 2022

/EINPresswire.com/ -- According to SPER Market Research, the Global [Contraceptives Market](#) is growing as a result of greater use of safe and effective oral contraceptives, increased knowledge of modern contraceptives, and health risks associated with adolescent pregnancies.

Contraception utilization has increased, which has improved health outcomes such as maternal and newborn mortality and reduced the incidence of sexually transmitted diseases. Furthermore, an increase in the number of gynecologists using these contraceptives for birth control would support the industry's growth in the coming years.

Market Overview (2022-2030)

- Forecast CAGR (2022-2030): 5.9%
- Forecast Market Size (2030): USD 20.27 Billion

Contraceptive devices will drive the fastest growth in the contraceptive market. Over the forecast period, contraceptive devices are expected to account for more than half of the global market for contraceptive medications. As a result of this increased demand, there is an increase in understanding of modern contraception. Governments throughout the world have continuously financed family planning and sex education campaigns to raise public awareness of the hazards of STDs, which has expedited the growth of the contraceptive medication business.
