

Allied Modular Building Systems, Leading Cleanroom Supplier, Announces New Blog Page to Summarize Details for Cleanrooms

Allied Modular has announced a new blog highlighting options for cleanrooms in work environments.

ORANGE, CALIFORNIA, UNITED STATES, September 27, 2022 /EINPresswire.com/ -- Allied Modular Building Systems, a best-in-class manufacturer of [modular offices](https://alliedmodular.com/) and modular buildings at

<https://alliedmodular.com/>, is proud to announce a new blog page for its subsidiary business, Allied Cleanrooms (<https://alliedcleanrooms.com/>). The leading modular builder and [cleanroom](#) supplier explain the details of how modular technology can dramatically improve cleanrooms. Science labs, manufacturing, and pharmaceutical companies may need to follow strict hygienic guidelines. Modular technology developed to create cleanrooms can be the answer.

Cleanrooms are a specialized type of modular unit. Not every company needs one, but when they do, it must follow specific guidelines"

Kevin Peithman

"Cleanrooms are a specialized type of modular unit. Not every company needs one, but when they do, it must follow specific guidelines," explained Kevin Peithman, CEO. "The new blog post summarizes our modular cleanroom technology and their classifications."

Interested parties can review the new blog page from Allied Modular's subsidiary, Allied Cleanrooms, at <https://alliedcleanrooms.com/blog/>. Corporate leaders searching for ultra-clean, well-made modular rooms can check details from a top cleanroom supplier. Cleanroom types include: USP 797, CGMP, and soft wall modular cleanrooms. Modular cleanrooms are used to produce and store sensitive products such as microprocessors, pharmaceuticals, and medical and biohazardous materials. Highly hygienic modular rooms can be designed to fit specific guidelines and classifications. Sterile workspaces can include; science labs, water treatment facilities, medical testing rooms, and microchip manufacturing. Industrial companies may require cleanrooms to store highly sensitive or biohazardous materials.

Interested persons can review the new blog post from Allied Cleanrooms at <https://alliedcleanrooms.com/cleanroom-technology-a-short-summary-of-technology/>. Corporate leaders can check the sister sites of Allied Modular to study other types of prefabricated, American-made modular construction like [machine enclosures](#) at

<https://machineenclosure.com/> and office pods at <https://zonez.com/>.

TOP-RATED CLEANROOM SUPPLIER SHARES DETAILS ON TECHNOLOGY

Here is the background on this release. If a corporate manager is tasked with oversight of the design and installation of a modular cleanroom, it may require the help of an educated partner. ISO standards can depend upon the type of sterilized room a business needs. Design requirements, including walls, fixtures, and flooring materials, must adhere to strict guidelines. Details from a team of modular cleanroom experts can help others understand the differences. Topics include Current Good Manufacturing Practices (CGMP Standards) and ISO classifications. Prefabricated, sterilized workspaces can be designed and delivered to support specific cleanroom needs. Interested parties are encouraged not only to visit the aforementioned websites but to reach out for a no obligation quote from a cleanroom design expert.

ABOUT ALLIED MODULAR SYSTEMS INC.

Allied Modular Building Systems (<https://alliedmodular.com/>) is a best-in-class modular building manufacturer. The company is a prefab supplier not just of modular buildings but also of modular offices, modular enclosures, and partitions and walls for manufacturing, offices, commercial, and even schools. From modular warehouses to retail walls, guardhouses, and security shacks, to even mezzanines, its top-rated manufacturing technology has bested the industry for over thirty years. Allied Modular supplies machine enclosures, CNC enclosures, and cleanrooms with partner companies.
