

The 29th Scientific Meeting of the International Society of Hypertension in Kyoto Invitation to ISH2022 Press Conference

To introduce our activities and highlights of the meeting a press conference will be held Monday, 11:00am – 11:30am (JST), October 3, 2022

KYOTO, JAPAN, September 26, 2022
/EINPresswire.com/ -- The 29th [Scientific Meeting of the International Society of Hypertension](https://www.ish2022.org/) (ISH2022 in Kyoto) will be held from October 12-16, 2022 in Kyoto, Japan.

The meeting is themed on “The Wisdom for Conquering Hypertension,” seeking for the solutions for better healthcare and health management of our lives, directed towards sustainable well-being.

Among that, the meeting featured three pillars: AI, Move and Food, with the ideas that not only medical treatment and control, but also the development of appropriate life-environments to enrich our physical activity and nutrition and the application of the latest technologies for self-management are important for hypertension control.

At the Opening Ceremony on October 12, we are honored to have the attendance of Their Imperial Highnesses Crown Prince and Crown Princess Akishino and have his message, followed by our Opening Keynote Lecture by Dr. Dzau, President of the United States National Academy of Medicine. Our plenary lecturer list includes a Nobel laureate, Professor Shinya Yamanaka.

Through the courses of the meeting, we hold a various session, including a joint session with the World Health Organization to introduce the international collaboration for the conquering Hypertension-related diseases and strategies for the QOL of human-being, and the ISH Position

International Society of Hypertension

Paper session to introduce the activities and perspectives of the International Society of Hypertension.

At the end of the meeting, we will adopt the "ISH2022 KYOTO Hypertension Zero Declaration (Kyoto Declaration)" to show our commitment to the fight against the Hypertension, and endeavors to our devotion to our mission to deliver better lives for human beings as a whole.
