

Blood Culture Test Market Size Reach US\$ 7.1 Billion by 2027 | CAGR of 8.77%

The global blood culture test market size reached US\$ 4.3 Billion in 2021. Looking forward, IMARC Group expects the market to reach US\$ 7.1 Billion by 2027

SHERIDAN, WYOMING, UNITED STATES, September 26, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group "Blood Culture Test Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027", The global [blood culture test market reached a value of US\\$ 4.3 Billion](#) in 2021. Looking forward, IMARC Group expects the market to reach US\$ 7.1 Billion by 2027, exhibiting a CAGR of 8.77% during 2022-2027.

A blood culture test is used to check foreign invaders like yeast, bacteria, and other microorganisms in the blood. It relies on the blood sample of an individual obtained via sterile technique, which is kept in culture media and incubated in a controlled environment for a few days. The results help in determining the pathogens causing the infection and possible methods for combating the disease.

Market Trends:

The global market is primarily driven by the rising incidences of bloodstream infections (BSI), sepsis and environment-borne diseases. Besides this, the increasing prevalence of chronic diseases, especially among the geriatric population, which is relatively more prone to medical ailments, is also contributing to the market growth. Furthermore, leading players are focusing on launching novel diagnostic techniques to reduce diagnosis time, eliminate manual errors and offer early prevention of infections. This, along with the rising cases of coronavirus disease (COVID-19), is escalating the demand for blood culture tests, thereby supporting the market growth.

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Competitive Landscape:

The competitive landscape of the market has been studied in the report with the detailed profiles of the key players operating in the market.

Some of these key players include:

Abbott Laboratories (ABT)
Beckman Coulter (BEC)
BD (Becton, Dickinson and Company) (NYSE:BDX)
BIOMERIEUX (BIM.PA)
Bruker Corporation (BRKR)
Cepheid (NASDAQ:CPHD). (Danaher Corporation)
Luminex Corporation
Merck Group
Siemens Healthineers AG
Roche Diagnostics
T2 Biosystems, Inc. (TTOO)
Thermo Fisher Scientific Inc. (NYSE: TMO)

The report has segmented the market on the basis of Product Type, End-User and Region.

Breakup by Testing Method:

Conventional
Automated

Breakup by Product:

Consumables
Blood Culture Media
Aerobic Blood Culture Media
Anaerobic Blood Culture Media
Fungi/Yeast Blood Culture Media
Mycobacteria Blood Culture Media
Assay Kits and Reagents
Blood Culture Accessories
Instruments
Automated Blood Culture Systems
Supporting Laboratory Equipment
Incubators
Colony Counters
Microscopes

Gram Stainers
Software and Services

Breakup by Technology:

Culture-based Technology
Molecular Technology
Microarray
PCR
PNA-FISH
Proteomic Technology
Others

Breakup by Application:

Bacterial Infection
Fungal Infection
Mycobacterial Infection

Breakup by End-User:

Hospital Laboratories
Reference Laboratories
Research Laboratories
Others

Market Breakup by Region:

North America (United States, Canada)
Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, Others)
Europe (Germany, France, United Kingdom, Italy, Spain, Russia, Others)
Latin America (Brazil, Mexico, Others)
Middle East and Africa
