

India Grow Light Market Expanding at a CAGR of 14.4% during 2022-2027

SHERIDAN, WYOMING, UNITED STATES,
September 26, 2022 /

EINPresswire.com/ -- According to the latest report by IMARC Group, titled "[India Grow Light Market: Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027](#)," the india grow light market reached a value of US\$ 70.5 Million in 2021. Looking forward, IMARC Group expects the market to reach US\$ 155.8 Million by 2027, exhibiting a CAGR of 14.4% during 2022-2027.

India Grow Light Market

Plant lights, or grow lights, are artificial light sources that enhance

photosynthesis and accelerate plant development. These lights are used to cultivate plants when natural light is insufficient or unavailable. Grow lights may also adjust many elements like as color, temperature, and intensity to replicate outdoor circumstances for increased crop yield.

Covid-19 Scenario: We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Market Trends and Drivers:

The growing use of grow lights in agriculture is driving the India grow light market. Grow lights are adaptable, energy-efficient, and cost-effective, making them ideal for commercial greenhouse farming. They also help to maintain optimal production and plant quality in order to fulfill the country's expanding food demand. Furthermore, the Government of India's increasing spending in research and development (R&D) initiatives to encourage agricultural scientific

advancements are driving up demand for grow lights. Furthermore, the development of smart grow lights that are integrated with the Internet of Things (IoT) is another important growth-inducing element that is projected to give the market with a bright outlook in the near future.

India Grow Light Market 2022-2027 Analysis and Segmentation:

The report has segmented the market on the basis on region, technology, installation type, spectrum, application.

Breakup by Technology:

- HID
- LED
- Fluorescent
- Others

Breakup by Installation Type:

- New Installations
- Retrofit Installations

Breakup by Spectrum:

- Full-Spectrum
- Partial Spectrum

Breakup by Application:

- Indoor Farming
- Vertical Farming
- Commercial Greenhouse
- Turf and Landscaping
- Others

Breakup by Region:

- North India
- West and Central India
- South India
- East India
