

Silica Gel Market Growth Forecast Analysis By Manufacturers, Regions, Type And Application by the end of 2030

NEW YORK, NEW YORK, UNITED STATES, September 26, 2022

/EINPresswire.com/ -- Demand for silica gel is witnessing a surge in agriculture, food & beverages, biotechnology, and electronics industries, and also from R&D labs and academic institutes. Silica gel is being increasingly used in personal care products, pharmaceuticals, and packaging, which are sectors that have not been adversely affected as most others have due to the COVID-19 outbreak. Increasing popularity of silica-based chillers and growing application of fragrance silica gel are also aiding market growth.

A recent report by Persistence Market Research estimates that, the global silica gel market will reach a valuation of around US\$ 750 Mn by the end of 2030.

Key Findings from Silica Gel Market Study:

By product type, non-indicating silica gel will continue to be sought-after in the market, with sales expanding at a comparatively higher CAGR than indicating silica gel. Growing demand for non-indicating silica gel is primarily attributed to its varied scope in applications such as desiccants, plastics, personal care products, and paints & coatings.

In terms of volume, fine-pore silica gel is estimated to exhibit a high CAGR through 2030, and will remain dominant in the global silica gel market.

In terms of volume, desiccants will continue to be the largest application of silica gel, followed by

pharmaceuticals, and paints & coatings. Pharmaceutical application of silica gel is expected to register the highest CAGR through 2030. In contrast, application of silica gel in catalyst support will exhibit the lowest CAGR over the coming years.

Asia Pacific is projected to be the most lucrative region for players in the global silica gel market.

Rosin Resin Market is segmented by source type Gum Resin, Wood Resin, Tall Oil Resin, also by product type that is Rosin Esters, Hydrogenated Silica Gel, Dimerized Silica Gel used in Road Marking, Rubbers, Coatings and Inks, Adhesives, Paper Sizing.

Silica Gel Market: Key Players

Key market players identified in PMR's report on the global silica gel market include W.R. Grace & Co., Thermo Fischer Scientific, Merck KGaA, Clariant, BASF SE, AGC Chemicals Americas, Osaka Soda Co., Ltd., Silicycle, Multisorb Technologies, Hengye, Inc., Dessicare, Inc., PQ Corporation, Fuji Silysia Chemical Ltd., and Qingdao Makall Group Inc.

Want to Know More?

Persistence Market Research has published a market research report on the silica gel market that contains global industry analysis of 2015–2019 and forecasts for the period of 2020–2030. The report provides insightful analysis of the silica gel market through different segments, namely, product (indicating silica gel and non-indicating silica gel), pore size (fine pore [type A], medium pore [type B], and wide pore [type C]), and application (chromatography, catalyst support, paints & coatings, plastic, desiccants [food, pharma, and others], and personal care products), across five major regions of the world. The silica gel market report also provides supply and demand trends, an import-export scenario, and a comprehensive list of suppliers and distributors in the market, along with a detailed overview of the value chain.
