

Wireless Power Transmission Market Key Players, End User, Demand and Analysis Growth Trends by 2030

Rising adoption of wireless power transmission in consumer electronics is a key factor driving wireless power transmission market revenue growth

VANCOUVER, BRITISH COLUMBIA, CANADA, September 26, 2022 /EINPresswire.com/ -- The Global [Wireless Power Transmission Market](#) report assesses the historical and current data along with a thorough analysis of the market dynamics. The report also sheds light on the

significant market growth driving and restraining factors that are anticipated to influence the market growth through the forecast period. The Global Wireless Power Transmission Market studies the market scenario to offer growth projections for the Wireless Power Transmission industry for the forecast period of 2022-2030. The report focuses on potential growth opportunities and limitations the prominent players of the industry might face during the entirety of the forecast timeline. The report pays special heed to the emerging business components, niche sectors, and product launches and brand promotions occurring in the market to help the readers make fruitful investment strategies.

The global Wireless Power Transmission (WPT) market size reached USD 6.53 Billion in 2021 and is expected to register a revenue CAGR of 21.1% during the forecast period, according to latest analysis by Emergen Research. Rising adoption of wireless power transmission in consumer electronics is the key factor driving market revenue growth.

Key market aspects studied in the report:

Market Scope: The report explains the scope of various commercial possibilities in the global Wireless Power Transmission market over the upcoming years. The estimated revenue build-up over the forecast years has been included in the report. The report analyzes the key market segments and sub-segments and provides deep insights into the market to assist readers with the formulation of lucrative strategies for business expansion.

Competitive Outlook: The leading companies operating in the Wireless Power Transmission market have been enumerated in this report. This section of the report lays emphasis on the geographical reach and production facilities of these companies. To get ahead of their rivals, the leading players are focusing more on offering products at competitive prices, according to our analysts.

Report Objective: The primary objective of this report is to provide the manufacturers, distributors, suppliers, and buyers engaged in this sector with access to a deeper and improved understanding of the global Wireless Power Transmission market.

Competitive Terrain:

The global Wireless Power Transmission industry is highly consolidated owing to the presence of renowned companies operating across several international and local segments of the market. These players dominate the industry in terms of their strong geographical reach and a large number of production facilities. The companies are intensely competitive against one another and excel in their individual technological capabilities, as well as product development, innovation, and product pricing strategies.

The leading market contenders listed in the report are:

Qualcomm Inc., Texas Instruments Inc., WiTricity Corporation, NuCurrent Inc. Samsung Electronics Co., Ltd., TDK Corporation, NXP Semiconductors N.V., Powermat Technologies Ltd., Semtech Corporation, WiTricity Corporation, Energous Corporation, and Analog Devices Inc

The research study examines historic data from 2018 and 2020 to draw forecasts until 2028. The timeline makes the report an invaluable resource for readers, investors, and stakeholders looking for key insights in readily accessible documents with the information presented in the form of tables, charts, and graphs.

Market Segmentations of the Wireless Power Transmission Market

This market is segmented based on Types, Applications, and Regions. The growth of each segment provides accurate forecasts related to production and sales by Types and Applications, in terms of volume and value for the period between 2020 and 2028. This analysis can help readers looking to expand their business by targeting emerging and niche markets. Market share data is given on both global and regional levels. Regions covered in the report are North

America, Europe, Asia Pacific, Latin America, and Middle East & Africa. Research analysts assess the market positions of the leading competitors and provide competitive analysis for each company. For this study, this report segments the global Wireless Power Transmission market on the basis of product, application, and region:

Segments Covered in this report are:

Technology Outlook (Revenue, USD Billion; 2019-2030)

Far-Field Technology

Microwave/RF

Laser/Infrared

Near-Field Technology

Inductive

Capacitive Coupling

Magnetic Resonance

Transmitter Application Outlook (Revenue, USD Billion; 2019-2030)

Standalone Chargers

Electric Vehicle Charging

Industrial Charging Solutions

Others

Implementation Outlook (Revenue, USD Billion; 2019-2030)

Integrated

Aftermarket

Regional Outlook of the Wireless Power Transmission Market

The global Wireless Power Transmission market has been categorized into several important geographical regions, including North America, Europe, Asia Pacific, Latin America, and Middle

East & Africa. In this section, authors of the report have studied the presence of the global Wireless Power Transmission market across major geographies. Moreover, the estimated market share, market size, revenue contribution, sales network and distribution channel, and other crucial elements of each regional segment have been detailed in the report.

Key Points of the Geographical Analysis:

Data and information related to the consumption rate in each region

Estimated increase in the consumption rate

Proposed growth of the market share of each region

Geographical contribution to market revenue

Expected growth rate of the regional markets

Key reasons to buy the Global Wireless Power Transmission Market report:

The latest report comprehensively studies the global Wireless Power Transmission market size and provides useful inference on numerous aspects of the market, such as the current business trends, market share, product offerings, and product share.

The report offers an insightful analysis of the regional outlook of the market.

It offers a detailed account of the end-use applications of the products & services offered by this industry.

The report holistically covers the latest developments taking place in this industry. Therefore, it lists the most effective business strategies implemented by the market rivals for ideal business expansion.

Competitive Landscape

In conclusion, the Wireless Power Transmission Market report is an exhaustive database that will help readers formulate lucrative strategies. The Wireless Power Transmission Market report studies the latest economic scenario with value, drivers, constraints, growth opportunities, challenges, demand and supply ratio, production capacity, import/export status, growth rate, and others. Additionally, the report also undertakes SWOT Analysis and Porter's Five Forces Analysis to study the leading companies.

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyse consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides

our clients with the ability to secure an edge over their respective competitors.
