

Certified Circular Plastics Market Analysis, Key Company Profiles, Types, Applications and Forecast To 2030

Rising demand for eco-friendly or sustainable plastics is a key factor driving revenue growth of the global certified circular plastics market

VANCOUVER, BRITISH COLUMBIA, CANADA, September 26, 2022 /EINPresswire.com/ -- The Global Certified Circular Plastics Market Research Report added by [Emergen Research](#) to its expanding repository is an all-inclusive document containing insightful data about the Certified Circular Plastics market and its key

elements. The report is formulated through extensive primary and secondary research and is curated with an intent to offer the readers and businesses a competitive edge over other players in the industry. The report sheds light on the minute details of the Certified Circular Plastics industry pertaining to growth factors, opportunities and lucrative business prospects, regions showing promising growth, and forecast estimation till 2030

The global certified circular plastics market size is expected to reach USD 3.93 Billion in 2030 and register a steady revenue CAGR of 12.3% over the forecast period, according to latest analysis by Emergen Research. Steady certified circular plastics market revenue growth can be attributed to rapid rise in demand for eco-friendly and sustainable plastics and packaging materials. Plastics output around the globe has reached 311 million metric tons, and it is expected to grow at a rate of roughly 4% per year over the foreseeable future. While plastics provide numerous benefits in terms of packaging and usage etc., concerns continue to increase regarding the potential harm that chemical components of plastics can cause to human health and the environment. A circular economy reduces waste, maximizes value, and makes effective use of plastic. This will also help to safeguard the environment, minimize marine litter, greenhouse gas emissions, and human reliance on fossil fuels in the process.

Key market aspects studied in the report:

Market Scope: The report explains the scope of various commercial possibilities in the global Certified Circular Plastics market over the upcoming years. The estimated revenue build-up over the forecast years has been included in the report. The report analyzes the key market segments and sub-segments and provides deep insights into the market to assist readers with the formulation of lucrative strategies for business expansion.

Competitive Outlook: The leading companies operating in the Certified Circular Plastics market have been enumerated in this report. This section of the report lays emphasis on the geographical reach and production facilities of these companies. To get ahead of their rivals, the leading players are focusing more on offering products at competitive prices, according to our analysts.

Report Objective: The primary objective of this report is to provide the manufacturers, distributors, suppliers, and buyers engaged in this sector with access to a deeper and improved understanding of the global Certified Circular Plastics market.

Competitive Terrain:

The global Certified Circular Plastics industry is highly consolidated owing to the presence of renowned companies operating across several international and local segments of the market. These players dominate the industry in terms of their strong geographical reach and a large number of production facilities. The companies are intensely competitive against one another and excel in their individual technological capabilities, as well as product development, innovation, and product pricing strategies.

The leading market contenders listed in the report are:

BASF SE, SABIC, INEOS Styrolution Group GmbH Mainzer Landstraße, The Dow Chemical Company, Exxon Mobil Corporation, Eastman Chemical Company, Lyondell Basell Industries Holdings B.V., Loop Industries, Inc., Chevron Phillips Chemical Company LLC., and IBM Corporation

The research study examines historic data from 2018 and 2020 to draw forecasts until 2028. The timeline makes the report an invaluable resource for readers, investors, and stakeholders looking for key insights in readily accessible documents with the information presented in the form of tables, charts, and graphs.

Market Segmentations of the Certified Circular Plastics Market

This market is segmented based on Types, Applications, and Regions. The growth of each segment provides accurate forecasts related to production and sales by Types and Applications, in terms of volume and value for the period between 2022 and 2030. This analysis can help readers looking to expand their business by targeting emerging and niche markets. Market share data is given on both global and regional levels. Regions covered in the report are North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. Research analysts assess the market positions of the leading competitors and provide competitive analysis for each company. For this study, this report segments the global Certified Circular Plastics market on the basis of product, application, and region:

Segments Covered in this report are:

Type Outlook (Revenue, USD Million; 2019–2030)

Polyethylene Terephthalate

High-Density Polyethylene

Polyvinyl Chloride

Low-Density Polyethylene

Polypropylene

Polystyrene

Others

Application Outlook (Revenue, USD Million; 2019–2030)

Packaging

Grocery Bags

Others

End-Use Outlook (Revenue, USD Million; 2019–2030)

Food & Beverages

Healthcare

Household

Building & Construction

Agriculture

Electrical & Electronics

Others

Regional Outlook of the Certified Circular Plastics Market

The global Certified Circular Plastics market has been categorized into several important geographical regions, including North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. In this section, authors of the report have studied the presence of the global Certified Circular Plastics market across major geographies. Moreover, the estimated market share, market size, revenue contribution, sales network and distribution channel, and other crucial elements of each regional segment have been detailed in the report.

Key Points of the Geographical Analysis:

Data and information related to the consumption rate in each region

Estimated increase in the consumption rate

Proposed growth of the market share of each region

Geographical contribution to market revenue

Expected growth rate of the regional markets

Key reasons to buy the Global Certified Circular Plastics Market report:

The latest report comprehensively studies the global Certified Circular Plastics market size and provides useful inference on numerous aspects of the market, such as the current business trends, market share, product offerings, and product share.

The report offers an insightful analysis of the regional outlook of the market.

It offers a detailed account of the end-use applications of the products & services offered by this industry.

The report holistically covers the latest developments taking place in this industry. Therefore, it lists the most effective business strategies implemented by the market rivals for ideal business expansion.
