

Talcum Powder Market is projected to expand at an exceptional double-digit CAGR from 2022-2030 | Emergen Research

Increasing demand from the cosmetic industry is one of the key factors driving market revenue growth

VANCOUVER, BC, CANADA, September 26, 2022 /EINPresswire.com/ -- The [talcum powder market](#) size reached USD 2.8 Billion in 2021 and is expected to register a revenue CAGR of 6.0% during

“

Talcum Powder Market Size
– USD 2.8 Billion in 2021,
Market Growth – at a CAGR
of 6.0%, Market Trends –
Lubrication facilities offered
by Talcum Powder”

Emergen Research

the forecast period to a latest analysis by Emergen Research. The increasing demand from the cosmetic industry is a key factor driving revenue growth of the market. Talc is commonly used as a powder glidant (flow regulator). This research focuses on the qualities that give talcs new end-use properties in terms of increasing compression lubrication. The effects of roughness, mean diameter, and specific surface area on residual die pressure, ejection pressure, lubrication index, and tablet hardness were investigated. Microcrystalline,

macrocrystalline, and somewhat macrocrystalline talc grades were investigated. The use of colloidal suspensions of ceramic particles in lubricating oils to reduce friction and wear is a method that could lead to the development of environmentally friendly, energy-saving lubricants.

Similarly, the Global Talcum Powder research report provides product definitions, classifications, and the latest applications. Not only does the Talcum Powder industry investigation covers information on industry size, share, and global and regional trends, But also it covers worldwide growth, product cost structure, business challenges, and news about upcoming opportunities, capacity, revenue, and forecast to 2030.

Talcum Powder business analysis covers techniques of key players including comprehensive information on key business developments, Company Overview, Financial Highlights, Product Portfolio, SWOT Analysis, Key Strategies, and Developments.

Talcum Powder Market Main competitors are:

Xilolite, Imerys, Golcha Group, Specialty Minerals Inc., Hayashi-Kasei, Beihai Group, Johnson & Johnson, Colgate-Palmolive Company, IMI FABI Talc Company, and Biotique

Some Key Highlights from the Report

The paper grade segment is expected to register significant market revenue growth. Talc is known for its properties such as lubricity, anti-adhesion, insulation, high melting point, lack of chemical activity, concealing power, softness, glidant, fire resistance, acid resistance, gloss, and adsorption. Talc has a tendency to fracture into scales and, due to its layered crystalline structure, has a distinctive lubricity.

The plastic & rubber segment is expected to register steady growth. Stiffness and creep resistance, hardness and surface scratch resistance, heat resistance, and thermal deformation temperature can all be considerably increased by utilizing a superfine talcum powder masterbatch. Talcum powder, which is relatively fine, can improve the impact strength of plastic items while also acting as a lubricant, promoting flow and improving plastic processing technology. It can improve toughness, flexural modulus, and torsional modulus; increase flexural strength; reduce creep tendency at room and high temperatures; raise thermal deformation temperature and dimensional stability, and improve deformation resistance by filling polyethylene with it. It also reduces thermal expansion and warpage, improves thermal conductivity, increases the hardness and smoothness of molded parts, and boosts the mechanical strength of polyethylene.

The market in the Asia Pacific is expected to register considerable growth. The Asia Pacific region held the global market share due to rising demand from countries such as China, India, and Japan.

Emergen Research has segmented the global talcum powder market on the basis of type, application, and region:

Type Outlook (Revenue, USD Billion; 2019-2030)

Cosmetics Grade

Paper Grade

Waterproofing Grade

Coatings Grade

Plastic Grade

Others

Application Outlook (Revenue, USD Billion; 2019-2030)

Paints & Coatings

Plastic & Rubber

Personal Care

Others

The Company that provides Talcum Powder market overviews, analyzes and forecasts market size and growth for the Talcum Powder global market, Talcum Powder market share, Talcum Powder market segments and geographies, Talcum Powder global market players, Talcum Powder global market leading competitor revenues, profiles and market shares. The Talcum Powder global market report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

You need to discover how this will impact the Talcum Powder market today, and over the next 10 years:

- Our 250-page report provides 194 tables and 189 charts/graphs exclusively to you.
- The report highlights key lucrative areas in the industry so you can target them – Now.
- It contains in-depth analysis of global, regional and national sales and growth.
- It highlights for you the key successful trends, changes and revenue projections made by your competitors.

This report tells you Today how the Talcum Powder market will develop in the next 10 years, and in line with the variations in COVID-19 economic recession and bounce. This market is more critical now than at any point over the last 10 years.

Forecasts to 2030 and other analyses reveal commercial prospects

- In addition to revenue forecasting to 2030, our new study provides you with recent results, growth rates, and market shares.
- You will find original analyses, with business outlooks and developments.
- Discover qualitative analyses (including market dynamics, drivers, opportunities, restraints and challenges), cost structure, impact of rising Talcum Powder prices and recent developments.

This report includes data analysis and invaluable insight into how COVID-19 will affect the industry and your company. Four COVID-19 recovery patterns and their impact, namely, "V", "L", "W" and "U" are discussed in this report.

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyse consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
