

Suicide By Rail Way Prevention Training in Nevada

Hot Rail Group LLC Leading Efforts in Nevada RAIL COP

FALLON, NEVADA, UNITED STATES, September 27, 2022 / EINPresswire.com/ -- Hot Rail Group LLC, announced today that it will be holding RAT Pack training sessions to help prevent suicide by railway in Nevada. These sessions will educate participants on how to identify and intervene in potentially dangerous situations.

"Through these training sessions, we hope to empower people to make a difference in their communities."

RAT Pack Training Sessions to Begin Soon in Nevada.

Hot Rail Group LLC, a Nevada company that provides railroad safety services,

will be conducting RAT Pack training sessions soon. RAT Pack stands for "Railway Awareness and Training for Prevention of Suicide and Terrorism." The goal of the training is to educate the public about suicide prevention and terrorist prevention. This will be done through a series of lectures, discussions, and hands-on exercises.

Rail suicides are unique and as such this initiative, along with future technology such as drone integration, will determine if a reduction of suicides in the area occurs. According to recent FRA reports, the State of Nevada has a 33% rail suicide average/trespasser incidents. The was driven home as we just had a suicide incident near Las Vegas this July. We are hopeful that these initiatives will demonstrate how this training will help keep people, including those considering suicide, off the tracks.

On-site Training Topic Examples

Hot Rail Group LLC

Rail COP
Community Oriented Policing
dba Hot Rail, LLC

Hot Rail Group RAIL COP

We are committed to promoting public safety and awareness of the dangers of suicide by railway."
