

# Autonomous Bus Door System Market Size Reach US\$ 359.0 Million by 2027 - IMARC Group

*According to the latest report by IMARC Group, The global autonomous bus door system market size reached US\$ 181.5 Million in 2021.*

SHERIDAN, WYOMING, UNITED STATES, September 27, 2022 /EINPresswire.com/ -- According to the latest report by IMARC Group "Autonomous Bus Door System Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027", The global [autonomous bus door system market size](#) reached US\$ 181.5 Million in 2021. Looking forward, IMARC Group expects the market to reach US\$ 359.0 Million by 2027, exhibiting a growth rate (CAGR) of 12.1% during 2022-2027.

An autonomous bus door system refers to the technology that is used to eliminate human intervention in operating the doors of buses. Unlike the traditional door system, it consists of motion sensors that open and close when any object comes nearer to the bus. The system also uses advanced components, such as LiDAR, RADAR, and camera, which enhances its efficiency. In addition, the automation system provides safety features that detect the motion of the bus and does not open the door while the commute is in process. These operations in the bus doors are carried out with the help of pneumatic and electrical components.

Note: We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

## Market Trends:

The global autonomous bus door system market is primarily driven by the increasing investments in transportation infrastructure development. Besides this, the rising adoption of advanced driver assistance systems (ADAS) in autonomous bus door systems helps prevent accidents. Furthermore, the escalating demand for fuel-efficient, high-performance, and low-emission vehicles is propelling market growth. An autonomous bus door system also eliminates manual ticket checking and provides a real-time count of passengers, which helps avoid

overcrowding. These factors are expected to influence the market growth across the globe in the coming years.

#### Breakup by Bus Type:

- Shuttle Bus
- City Bus
- Intercity Bus
- Coach
- BRT Bus

#### Breakup by Door Type:

- Conventional Doors
- Folding Doors
- Sliding Plug Doors
- Coach Doors
- Inward Gliding Doors

#### Breakup by Mechanism:

- Pneumatic
- Electric

#### Breakup by Propulsion Type:

- IC Engine
- Electric Engine

#### Market Breakup by Region:

- North America (United States, Canada)
- Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, Others)
- Europe (Germany, France, United Kingdom, Italy, Spain, Russia, Others)
- Latin America (Brazil, Mexico, Others)
- Middle East and Africa

#### Competitive Landscape with Key Player:

- Circle Bus Door Systems Co. Ltd.
- Continental AG
- Daimler AG
- Ferro Doors A/S

KBT GmbH  
Masats LLC  
Scania AB (Volkswagen AG)  
Schaltbau Holding AG  
Transport Door Solutions Ltd. (McGregor Young Group)  
Ventura Systems CV.
