Market Overview

According to the United Nations, the global population aged 60 years or over was numbered at 962 million in 2017 and is expected to reach nearly 2.1 billion by 2050. This rapidly growing geriatric population base is an indication of the growing prevalence of various age-related diseases including diabetes, kidney diseases, and hypertension, heart diseases among others. This rise in chronic illnesses can lead to an increase in demand for various diagnostics and screening services which in turn will positively impact the medical equipment maintenance

market. Furthermore, the medical equipment maintenance market is anticipated to grow on account of the rise in preference for the purchase of refurbished medical equipment, increase in the adoption of preventive maintenance, strategic agreements and collaboration between service providers and end-users, rising government and public-private investments, and various advantages such as reducing errors, calibration and reduced risks of contamination associated with the implementation of medical equipment maintenance.

COVID-19 Impact

The COVID-19 pandemic has provided tremendous research resources while also highlighting the threat of deadly epidemic-prone diseases worldwide. The demand for medical equipment maintenance has significantly increased during the COVID-19 pandemic as a broad range of medical devices are used in the diagnostic and treatment of life-threatening diseases. Global medical equipment maintenance market report is studied thoroughly with several aspects that would help stakeholders in making their decisions more curated.

By Device Type, the market is primarily fragmented into

- Imaging Equipment
- Advanced Modalities
- Surgical Instrumentation
- Endoscopic Device
- Electromedical Equipment

Amongst device types, the imaging equipment segment of the global medical equipment maintenance market grabbed a significant share in 2020 and is expected to grow substantially in the upcoming years.

By Service Type, the market is primarily segmented into

- Preventive Maintenance
- Corrective Maintenance
- Operational Maintenance

By service type, the preventive maintenance segments dominated the global medical equipment maintenance market and will grow at a considerable CAGR during the projected timeframe.

By End-Users, the market is primarily segmented into

- Hospitals
- Ambulatory Surgical Centers
- Others

Amongst end-users, the hospitals segment grabbed the major market share of the global medical equipment maintenance market in 2020 and is anticipated to grow with the lucrative

CAGR in the coming years.

Medical Equipment Maintenance Market Geographical Segmentation Includes:

- North America (United States, Canada, and Rest of North America)
- Europe (Germany, United Kingdom, Italy, France, Spain, and Rest of Europe)
- Asia-Pacific (China, India, Australia, Japan, and Rest of Asia-Pacific)
- Rest of the World

Geographically, the North America region dominated the medical equipment maintenance market in 2020 owing to the well-established market players in the region.

The major players targeting the market includes

- GE Healthcare
- Koninklijke Philips N.V.
- Toshiba Medical System Corporation
- FUJIFILM Holdings Corporation
- Carestream Health
- Agfa-Gevaert Group
- Hitachi Medical Corporation
- Drägerwerk AG & Co. KGaA
- Olympus Corporation
- Althea Group

Abbott Competitive Landscape

The degree of competition among prominent global companies has been elaborated by analyzing several leading key players operating worldwide. The specialist team of research analysts sheds light on various traits such as global market competition, market share, most recent industry advancements, innovative product launches, partnerships, mergers, or acquisitions by leading companies in the medical equipment maintenance market. The major players have been analyzed by using research methodologies for getting insight views on global competition.

Key questions resolved through this analytical market research report include:

- What are the latest trends, new patterns, and technological advancements in the medical equipment maintenance market?
- Which factors are influencing the medical equipment maintenance market over the forecast period?
- What are the global challenges, threats, and risks in the medical equipment maintenance market?

- Which factors are propelling and restraining the medical equipment maintenance market?
- What are the demanding global regions of the medical equipment maintenance market?
- What will be the global market size in the upcoming years?
- What are the crucial market acquisition strategies and policies applied by global companies?

We understand the requirement of different businesses, regions, and countries, we offer customized reports as per your requirements of business nature and geography. Please let us know If you have any custom needs.
