

# CallCabinet's partnership with Telin brings compliance to 3CX clients

*CallCabinet expands availability again with seamless integration to 3CX platforms.*

BOCA RATON, FL, UNITED STATES,  
September 28, 2022 /

[EINPresswire.com/](https://www.einpresswire.com/) -- As part of its continued drive to ensure availability for all major UC, PBX and telephony platforms, CallCabinet today announced its partnership with Telin.

Known for being one source for all things unified communications, Telin, as a preferred provider of 3CX SIP trunks, 3CX hosting, and SNOM/VTECH solutions, was an obvious choice. Telin has spent the better part of three decades amassing a reputation for delivering the same white-glove service their VARs, MSPs, and 3CX partners offer their enterprise and small business customers – but at the wholesale level.

“

It's important to us to only offer the best there is and CallCabinet fit the mold to provide seamless compliance call recording, quality assurance and unlimited voice analytics with their product.”

*Zack Lee, Telin Vice President*

Said Zack Lee, Vice President at Telin, “Our partners require solutions that work, without the hassle. It's important to us to only offer the best there is and CallCabinet fit the mold to provide seamless compliance call recording, quality assurance and unlimited voice analytics with their product. It's also easy to use, deploy, and sell – making it a clear leader in the compliance recording industry.”

CallCabinet is the most comprehensive, cloud-native compliance call recording solution available and integrates

seamlessly with all the major UC, PBX and telephony platforms. As such, CallCabinet is set to complete Telin's offering to clients who operate in the world's most heavily regulated industries.

John McCarthy, Chief Operating Officer at CallCabinet stated, “Businesses all over the world are currently adapting to the cloud revolution, each in its own unique way. Some organizations will

keep to what they know, and some will do a complete switch of technologies to get where they want to be. It's a natural process, and it's why CallCabinet continues to make sure it seamlessly integrates with all the major technologies out there – making it easier for businesses to move to the cloud.”

CallCabinet invented cloud-native call recording and has a proven track record across many industries including financial services, automotive, healthcare and legal services. This track record is what informs its continuous enhancements, culminating in the most comprehensive solution available with a depth of compliance that exceeds all others.

#### About CallCabinet

CallCabinet's compliance call recording, automated quality assurance and next-gen voice analytics modernizes the customer experience, mitigates security risks, and meets global compliance and data sovereignty standards. Reduce the total cost of ownership (TCO) with full ownership of security compliance, controls and data. CallCabinet's cloud security, rotating encryption methodology, redundant and resilient network is a secure and compliant multi-platform, multi-tenant, carrier-grade solution that is telephone system and unified communications platform-agnostic.

Headquartered in Boca Raton, Florida, CallCabinet has additional regional offices in Australia, Germany, South Africa and the United Kingdom.
