The global Advanced Therapy Medicinal Products CDMO market is estimated to reach over USD 16.15 billion by 2030, exhibiting a CAGR of 11.25% during the forecast

products" includes items created through tissue engineering, cell therapy, and gene therapy. The market is expanding due to growing awareness and conviction among researchers regarding the advantages of advanced therapy and growing clinical investigations of ATMP. The market is evolving due to the increased demand for advanced therapies. The expansion can be attributed to the rise of rare and fatal diseases, such as metabolic and ophthalmic illnesses, and increased funding for the research and

development of cutting-edge therapeutic medical products. Additionally, ATMPs like mesenchymal stem cells (MSCs) present an advanced method of treating the COVID-19 virus. The COVID-19 pandemic has significantly impacted the cell and gene therapy industry because of the difficulty of the manufacturing process. Recent technical developments have had a significant positive impact on tissue engineering. This method helps to replace or restore the function of damaged tissues and organs. Similar to this, gene and cell therapy are drawing many people for treating rare ailments, which are becoming more commonplace worldwide.

List of Prominent Players in the Advanced Therapy Medicinal Products CDMO Market:

- Celonic
- Bio Elpida
- CGT Catapult
- Rentschler Biopharma SE
- AGC Biologics
- Catalent
- Lonza
- WuXi Advanced Therapies
- BlueReg
- Minaris Regenerative Medicine
- Patheon

Market Dynamics:

Drivers-

The continuous development of innovative therapeutic products has fueled the growth of advanced therapy medicinal products CDMO market. These market developments are the result of increased global demand for items. Rising product demand and enormous expansion in gene and cell therapy are expected to fuel market growth avenues over the projection period. Biopharmaceutical businesses have emphasized the outsourcing of manufacturing services to CDMOs in recent years. The goal of outsourcing is to focus on the fundamental tasks of any firm.

CDMO guarantees that consumers receive a comprehensive package, beginning with clinical trial preparation and ending with drug manufacture. As a result of these aspects, the market is expected to experience varying growth possibilities in the forthcoming years.

Challenges:

The cost of advanced therapy medicinal products CDMO is currently very costly. Most of the United States and the European Union products are covered under reimbursement programs. However, such high-cost therapies are difficult to afford for those who do not have insurance.

Regional Trends:

The North America Advanced Therapy Medicinal Products CDMO market is expected to register a significant market share in revenue and is projected to grow at a high CAGR shortly. The region is predicted to generate the majority of market revenue. Due to increased knowledge of sophisticated therapies and expanding outsourcing activities, North America's market relevance is attainable. Furthermore, the United States has been a pioneer in R&D operations to give novel treatments to the healthcare industry. As a result of these reasons, the market is likely to rise quickly in the following years. Besides, Asia Pacific had a substantial share in the market because of advancements in treatment technology and growing regional outsourcing activity. The region's need for advanced treatment therapeutic goods is being met by the region's major rivals in the advanced therapy medicinal products CDMO market.

Recent Developments:

- In November 2020, Catalent will acquire Bone Therapeutics' cell therapy manufacturing unit. This acquisition has enabled the corporation to broaden its capabilities for pursuing new goods in its industry.

Segmentation of Advanced Therapy Medicinal Products CDMO Market-

By Product-

- Gene Therapy
- Cell Therapy
- Tissue Engineered
- Others (Combined ATMPs, for example, biodegradable matrix or scaffold)

By Phase-

- Phase I
- Phase II
- Phase III
- Phase IV

By Indication

- Oncology
- Cardiology

- Central Nervous System
- Musculoskeletal
- Infectious Disease
- Dermatology
- Endocrine, Metabolic, Genetic
- Immunology & Inflammation
- Ophthalmology
- Hematology
- Gastroenterology
- Others

By Region-

North America-

- The US
- Canada
- Mexico

Europe-

- Germany
- The UK
- France
- Italy
- Spain
- Rest of Europe

Asia-Pacific-

- China
- Japan
- India
- South Korea
- South East Asia
- Rest of Asia Pacific

Latin America-

- Brazil
- Argentina
- Rest of Latin America

Middle East & Africa-

- GCC Countries
- South Africa
- Rest of Middle East and Africa
