

# Community Health Centers of South-Central Texas Partners with BlueStar TeleHealth to Offer Remote Patient Monitoring

*CHCSCT is offering remote patient monitoring services to thousands of patients with hypertension through a partnership with BlueStar TeleHealth*

ROCKVILLE, MARYLAND, UNITED STATES, September 28, 2022 /EINPresswire.com/ -- BlueStar [TeleHealth](#) is partnering with Community Health Centers of South Central Texas (CHCSCT), a Federally Qualified Health Center (FQHC) in South-Central Texas, that provides quality and comprehensive, preventive and primary health care throughout the entire life cycle of their patients. Their new [remote patient monitoring](#) (RPM) program puts health equipment in patient's homes, to automatically delivers physiological information to BlueStar's monitoring team. This data coupled with enhanced patient engagement enables CHCSCT to better manage their patients' hypertension on an ongoing basis.

CHCSCT's new remote patient monitoring program is popular with patients, physicians, and nurses. The new RPM program is part of their ongoing effort to better serve their patients with chronic diseases. By outsourcing all of the non-clinical work to BlueStar, CHCSCT's RPM program launched quickly and effectively without over-burdening its staff.
