"Common sense ideas often ignite waves of innovation when eliminating self-imposed constraints of 'can't'. With harmonized individual and team 'can do' belief systems, many great things are achievable. We reduce or eliminate the 'can't' with passionate focus on the how and when." – Bill Morgan, CEO of Avistas.

Avistas expertise spans many industries as all require secure communications, secure transactions, knowledge transfer of international "best practices" and strategic investments. Over the years, Avistas has become a facilitator introducing private placement for qualified project financing with both debt and equity across these industries. Avistas recently facilitated strategic investments in a significant international alternative energy project. Mr.

Morgan has been invited to sit on the energy panel for discussions at the East Africa Business Network's [17th Annual Trade & Investment Conference](#).

By 2013 annual trade and investment conferences began featuring global industry leaders highlighting sustainable solutions across major industries such as mobile finance, agriculture, manufacturing, telecommunications, energy, education, healthcare, women's leadership, real estate and clean water.

In 2022, the East Africa Chamber of Commerce pivoted globally as a 501(c)(6) "Business League" to become the East Africa Business Network facilitating major investments in initiatives that are simply, socially, good.
