The number of social media users have increased considerably with rise in internet penetration. Taking this into consideration, stakeholders of donkey milk are indulged in creating awareness regarding donkey milk products and its benefits for health. Moreover, social media is one of the strategies adopted by various manufactures on imparting awareness about their product offerings among target customers on social media channels. Thus, through social media

awareness strategy, the global donkey milk sights critical opportunity in gaining traction and increasing its customers reach among its target segments. However, high price of donkey's milk than price of cow milk, buffalo milk, and goat milk restrains the donkey milk market growth. Moreover, products that are made from donkey milk such as cheese, chocolates, cheddar, and others are also expensive. In addition, a kilogram of donkey milk cheese costs around \$1,130 which makes it the world's most expensive cheese. Moreover, lack of government support for producing donkey milk and unavailability of donkey farm affect the production and cost of the milk. Moreover, the manufacturers do not have a proper supply chain owing to which it is not available in hypermarket/supermarket or online sales channel. These factors restrain the growth of the donkey milk market.

The outbreak of COVID-19 has positively impacted the donkey milk market in 2020, as sale of companies has increased, owing to its high nutritious properties. In addition, according to the Food and Agriculture Organization (FAO), donkey's milk can be a component of a balanced diet, milk, and dairy products and it can be an important source of dietary energy, fat, and protein. Furthermore, increase in adoption of donkey's milk due to high vitamin content and ability to boost the immune system, during the COVID-19 pandemic to keep the immune system well drives the market growth.
